\* The ongoing charges figure is expressed as a percentage of the sum of expenses over the average net asset value of the class of units for the corresponding period as described below. This figure may vary from year to year. Information is updated as at 29 March 2022.

β This figure is based on the expenses for the year ended 31 December 2021.

^ The first issue of the class of units has not yet occurred. This ongoing charges figure is an estimate only and is based on the estimated ongoing charges figure of Class A Units USD Unhedged Acc with similar fee structure over a 12-month period. The actual ongoing charges figure may be different and may vary from year to year.

^^ The first issue of the class of units has not yet occurred. This ongoing charges figure is an estimate only and is based on the estimated ongoing charges figure of Class A Units USD Unhedged MDis with similar fee structure over a 12-month period. The actual ongoing charges figure may be different and may vary from year to year.

**Minimum initial investment:** Class A Units: USD10,000 or equivalent

**Minimum subsequent investment:** Class A Units: USD5,000 or equivalent

**Minimum holding:** Class A Units: USD10,000 or equivalent

**Minimum redemption amount:** Class A Units: Nil

## What is this product?

- The Value Partners Asian Income Fund (the “Sub-Fund”) is a sub-fund of Value Partners Fund Series which is a unit trust established under the laws of Hong Kong.
- The Sub-Fund will invest predominantly in Asian equity and/or fixed income securities.

## Objectives and Investment Strategy

### Objective

The investment objective of the Sub-Fund is primarily to maximize return and income by investing in Asian equities, Asian fixed income securities and other assets relating to Asian companies that are listed, or have their registered offices in Asia or that generate a predominant share of their sales and/or their profits in Asia. The Sub-Fund aims to deliver lower portfolio volatility by actively screening and selecting a combination of lower volatility equities and fixed income securities. There can be no assurance that the Sub-Fund will achieve its investment objective.

### Strategy

The Sub-Fund seeks to achieve its investment objective by primarily investing in Asian equity and/or fixed income securities and to deliver lower portfolio volatility. The Sub-Fund will be actively managed and will invest in the Asian region which includes emerging market countries as well as developed countries.

Investments will be selected by the Manager by identifying high-yielding investments through bottom-up research and a screening process followed by a preliminary evaluation and a detailed qualitative and quantitative analysis in companies or issuers that are listed, or have their registered offices in Asia or that generate a predominant share of their sales and/or their profits in Asia. Companies or issuers selected following the screening process are subjected to evaluation and ongoing review by sector analysts, and the Manager will focus on the selection of companies which offer potential long term value and consider quantitative factors including sustainable business models, robust balance sheets, market capitalisation, liquidity and dividend yield, as well as qualitative factors, such as quality of management and industry analysis.

### Equity investments

The Sub-Fund may invest 30% to 70% of its Net Asset Value in Asian equity securities (including but not limited to American Depositary Receipts (“ADRs”), A-Shares, B-Shares and H-Shares). The Sub-Fund’s investment in A-Shares may be made indirectly via China access products (such as participatory notes) (the “Access Products”) and/or directly via the Stock Connect (which comprises the Shanghai- Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect). The Sub-Fund will not in aggregate invest more than 20% of its Net Asset Value in A-Shares and B-Shares, and not more than 10% of the Sub-Fund’s Net Asset Value may be invested in Access Products issued by any single Access Products issuer. There is no restriction on market capitalizations or industries in relation to the equity securities in which the Sub-Fund may invest, and the Sub-Fund may invest substantially in securities issued by small and mid- cap companies.

*Fixed income securities investments*

The Sub-Fund may also invest 30% to 70% of its Net Asset Value in Asian fixed income securities, such as PRC offshore bonds and other fixed income securities (including but not limited to convertible bonds and contingent convertible bonds (each up to 30% of its Net Asset Value), which are mainly denominated and settled in USD, HKD or RMB.

The Sub-Fund may invest less than 30% of its Net Asset Value in instruments with loss-absorption features ("LAPs") such as contingent convertible bonds issued by financial institutions, non-preferred senior debt instruments, certain Additional Tier 1 and Tier 2 capital instruments and external loss-absorbing capacity debt instruments. These instruments may be subject to contingent write-down or contingent conversion to ordinary shares on the occurrence of trigger event(s).

The Sub-Fund will have no restrictions on the credit ratings of the fixed income securities it holds, and may invest up to 40% of its Net Asset Value in fixed income securities which (or the issuers of which) are rated Below Investment Grade, or which are unrated.

For the purposes of the Sub-Fund:

- A fixed income security which is rated below investment grade is defined as a fixed income security which (or the issuer of which) is rated below BBB-/Baa3 by an internationally recognised credit rating agency (such as Standard & Poor's, Moody's and/or Fitch) ("Below Investment Grade"); and
- An "unrated" fixed income security is defined as a fixed income security which neither the security itself nor its issuer has a credit rating.

*Other investments*

The Sub-Fund may also invest up to 30% of its Net Asset Value in aggregate in the following categories: "Dim Sum" bonds and collateralised and/or securitised products (such as asset backed securities/mortgage backed securities/asset backed commercial papers). The Sub-Fund will not invest in urban investment bonds, which are debt instruments issued by local government financing vehicles in the PRC exchange-traded bond markets and inter-bank bond market.

The Sub-Fund will not invest more than 10% of its Net Asset Value in securities issued by or guaranteed by any single sovereign issuer (including its government, a public or local authority of that country).

The Sub-Fund may invest up to 10% of its Net Asset Value in one or more underlying scheme(s) which are non-recognised jurisdiction schemes and not authorised by the SFC and up to 30% of its Net Asset Value in one or more underlying scheme(s) which are recognised jurisdiction schemes and authorised by the SFC, including those which are managed by the Manager or its Connected Persons or other third parties.

If the Manager considers fit, the Sub-Fund may, to a limited extent (up to 20% of its Net Asset Value), seek exposure to other asset classes including but not limited to non-Asian securities and commodities indirectly through exchange traded funds and/or similar instruments (such as other underlying scheme(s) as permitted under Chapter 7 of the SFC's Code on Unit Trusts and Mutual Funds).

The Sub-Fund's portfolio may also temporarily include cash and cash equivalents, up to 100% of its Net Asset Value, under exceptional circumstances (such as in the event of market crashes, major crisis or to mitigate the risk of potential sharp reversals and fall in the equity or bond markets) for cash flow management.

The Sub-Fund may invest in financial derivative instruments for hedging purposes only. The Manager will not enter into any securities lending, repurchase or reverse-repurchase transactions or other similar over-the-counter transactions in respect of the Sub-Fund.

**Asset allocation table**

The Sub-Fund's portfolio will be allocated, according to asset class, as follows:

<b>Asset class</b>	<b>Indicative percentage of Net Asset Value</b>
Equities (Equities of Asian companies that are listed, or have their registered offices in Asia or that generate a predominant share of their sales and/or their profits in Asia)	30% to 70%
Fixed income securities (Asian fixed income securities including PRC offshore bonds and other fixed income securities (including but not limited to convertible bonds and contingent convertible bonds) which are mainly denominated and settled in USD, HKD or RMB)	30% to 70%
Other asset classes (Including but not limited to non-Asian securities and commodities indirectly through exchange traded funds and/or similar instruments)	0% to 20%
Cash and cash equivalents	0% to 100%

The asset allocation of the Sub-Fund will change according to the Manager's views of fundamental economic and market conditions and investment trends, taking into consideration factors such as liquidity, costs, timing of execution, relative attractiveness of individual securities and issuers available in the market.

**Use of derivatives**

The Sub-Fund's net derivative exposure may be up to 50% of its Net Asset Value.

**What are the key risks?**

**Investment involves risks. Please refer to the Explanatory Memorandum for details including the risk factors.**

**1. Investment risk**

- The Sub-Fund is an investment fund. There is no guarantee of the repayment of principal. Therefore your investment in the Sub-Fund may suffer losses.

**2. Concentration risk**

- The Sub-Fund is subject to concentration risk as a result of the concentration of its investments in the Asian markets. The Sub-Fund may be more volatile than a broadly based fund as it is more susceptible to fluctuation in value resulting from adverse conditions in the Asian market.

**3. Risk relating to dynamic asset allocation strategy**

- The investments of the Sub-Fund may be periodically rebalanced and therefore the Sub-Fund may incur greater transaction costs than a fund with static allocation strategy. The dynamic asset allocation strategy may not achieve the desired results under all circumstances and market conditions.

**4. Risk of investing in equity securities**

- *General:* The Sub-Fund's investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors.
- *Small and mid-capitalisation companies:* The Sub-Fund may invest in small and mid- capitalisation companies. The stocks of such companies may have lower liquidity and their prices are more volatile to adverse economic developments than those of larger capitalisation companies in general.

**5. Risk of investing in fixed income securities**

- *Interest rate risk:* Generally, the value of fixed income securities is expected to be inversely correlated with changes in interest rates. Any increase in interest rates or changes in macro- economic policies in the Asian markets may adversely impact the value of the Sub-Fund's fixed income portfolio.
- *Volatility and liquidity risk:* The fixed income securities in certain Asian markets may be subject to higher volatility and lower liquidity compared to more developed markets. The prices of securities traded in such markets may be subject to fluctuations. The bid and offer spreads of the price of such securities may be large and the Sub-Fund may incur significant trading costs.
- *Credit risk:* Investment in fixed income securities is subject to the credit risk of the security or its issuers, who may be unable or unwilling to make timely payments of principal and/or interest. In the event of a default or credit rating downgrading of the securities or the issuers of the fixed income securities held by the Sub-Fund, the Sub-Fund's value will be adversely affected and investors may suffer a substantial loss as a result.
- *Downgrading risk:* The Manager may or may not be able to dispose of the securities that are being downgraded. There may also be difficulties or delays in enforcing rights against the issuers who will generally be incorporated outside of Hong Kong and therefore not subject to the laws of Hong Kong.
- *Risk of investing in Below Investment Grade and unrated bonds:* The Sub-Fund may be invested in fixed income securities which (or the issuers of which) are rated Below Investment Grade, or may not be rated by any rating agency of an international standard. Such securities are generally subject to a higher degree of volatility and credit risk, a lower degree of liquidity and greater risk of loss of principal and interest than high-rated debt securities, which may result in greater fluctuations in value and, consequently, the Net Asset Value of the Sub-Fund.
- *Valuation risk:* Valuation of the Sub-Fund's investments may involve uncertainties and judgemental determinations. If such valuations are incorrect, this may affect the Net Asset Value calculation of the Sub-Fund.
- *Credit ratings risk:* Credit ratings assigned by rating agencies are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times.

**6. Risk of investing in convertible bonds**

- Convertible bonds are a hybrid between debt and equity, permitting holders to convert into shares in the company issuing the bond at a specified future date. As such, convertibles will be exposed to equity movement and greater volatility than straight bond investments. Investments in convertible bonds are subject to the same interest rate risk, credit risk, liquidity risk and prepayment risk associated with comparable straight bond investments.

**7. Risk associated with investments in contingent convertible bonds**

- *Trigger level risk / conversion risk:* Contingent convertible bonds may have non-viability and/or loss absorption convertible features and may be subject to compulsory conversion by the issuer into ordinary shares upon the occurrence of a trigger event which may be out of the issuer's control. Trigger levels differ and determine exposure to conversion risk. It might be difficult for the Manager to anticipate the triggering events that would require the conversion. These instruments may be converted into shares potentially at a discounted price and the principal amount invested may be lost. In case of conversion, the Manager might be forced to sell these new equity shares and such forced sale may result in the Sub-Fund experiencing losses.

- *Coupon cancellation risk:* Coupon payments are entirely discretionary and may be cancelled by the issuer. As a result, these instruments may be volatile and their price may decline rapidly in the event that coupon payments are suspended.
- *Sector concentration risk:* These instruments are issued by banking and insurance institutions. The performance of the Sub-Fund may depend to a greater extent on the overall condition of the financial services industry than for funds following a more diversified strategy.
- *Novelty and untested nature:* The structure of these instruments is innovative yet untested. In a stressed environment, when the underlying features of these instruments will be put to the test, it is uncertain how they will perform.

#### **8. RMB currency risk**

- The Sub-Fund may have exposure to investments which are denominated in RMB. The RMB is not freely convertible and subject to exchange controls and restrictions. Investors whose assets and liabilities are predominantly in currencies other than RMB should take into account the potential risk of loss arising from fluctuations in value between such currencies and the RMB as well as associated fees and charges. There is no guarantee that RMB will not depreciate. Any depreciation of the RMB could adversely affect the value of the investor's investment in the Sub-Fund.
- Assets of the Sub-Fund denominated in RMB are valued with reference to the CNH rate. Although offshore RMB (CNH) and onshore RMB (CNY) are the same currency, they trade at different rates. Any divergence between CNH and CNY may adversely impact investors.
- Under exceptional circumstances, payment of redemption and/or dividend payment in RMB may be delayed due to the exchange controls and restrictions applicable to RMB.

#### **9. Foreign exchange risk**

- An investment in the Sub-Fund may involve exchange rate risk. The investments of the Sub-Fund may be denominated in currencies other than the base currency of the Sub-Fund (which is USD). Also, a class of units may be designated in a currency other than the base currency of the Sub-Fund as well. Fluctuations in the exchange rates between such currency and the base currency as well as associated fees and charges may have an adverse impact on the performance of the Sub-Fund.

#### **10. Derivative risk**

- The Sub-Fund may from time to time invest in financial derivative instruments for hedging purposes. The use of such derivatives exposes a sub-fund to additional risks, including volatility risk, valuation risk, leverage risk, liquidity risk, correlation risk, counterparty/credit risk, legal risk, over-the-counter transaction risk and settlement risk.

#### **11. Hedged class risk**

- There is no guarantee that the desired hedging instruments will be available or that the hedging techniques will be effective. Hedging can limit potential gains of a hedged class.

#### **12. Dividends risk / distributions payable out of capital or effectively out of capital risk**

- Payment of dividends out of capital or effectively out of capital may require the Manager to sell the assets of the Sub-Fund and amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of capital or effectively out of capital of Sub-Fund may result in an immediate reduction of the Net Asset Value per Unit of the relevant class.
- The distribution amount and Net Asset Value of the hedged unit classes may be adversely affected by differences in the interest rates of the reference currency of the hedged share class and the Sub-Fund's base currency, resulting in an increase in the amount of distribution that is paid out of capital and hence a greater erosion of capital than other non-hedged share classes.

## How has the fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividend reinvested.
- The figures show by how much Class A Units: USD Unhedged Acc increased or decreased in value during the calendar year being shown. Performance data has been calculated in US\$ including ongoing charges and excluding subscription fee and redemption fee you might have to pay.
- Where no past performance is shown there was insufficient data available in that year to provide performance.
- Sub-Fund launch date: 13 November 2017
- Class A Units: USD Unhedged Acc launch date: 13 November 2017
- Class A Units: USD Unhedged Acc have the longest history and are broadly indicative of the Sub- Fund's performance characteristics.

## Is there any guarantee?

This Sub-Fund does not have any guarantees. You may not get back the full amount of money you invest.

## What are the fees and charges?

Charges which may be payable by you

You may have to pay the following fees when dealing in the units of the Sub-Fund.

Fee	What you pay
	<b>Class A Units</b>
<b>Subscription fee</b>	Up to 5% of the subscription monies
<b>Redemption fee*</b>	Nil
<b>Switching fee**</b>	Nil

<sup>^</sup> Certain distributors may impose a charge for each switching of Units in a class of the Sub-Fund acquired through them for Units in another class of the Sub-Fund, which will be deducted at the time of the switching and paid to the relevant distributors. Unitholders who intend to switch their Units in one class to Units in another class should check with their respective distributors for the charge on switching.

## Ongoing fees payable by the Sub-Fund

The following expenses will be paid out of the Sub-Fund. They affect you because they reduce the return you get on your investments.

	Annual rate (as a % of the class of Units' Net Asset Value)
<b>Management fee*</b>	Class A Units: 1.50%
<b>Performance fee</b>	N/A
<b>Trustee fee*</b>	0.135% per annum for the first USD150 million in Net Asset Value of the Sub-Fund, 0.13% per annum for the portion over the first USD150 million up to and including USD800 million in the Net Asset Value of the Sub-Fund, 0.125% per annum for the balance in excess of USD800 million in the Net Asset Value of the Sub-Fund.
	The Trustee fees are subject to a monthly minimum of USD4,500.
<b>Other fees</b>	You may have to pay other fees when dealing in the Units of the Sub-Fund.

\* You should note that some fees may be increased, up to a specified permitted maximum, by giving affected unitholders at least one month's prior notice. For details please refer to the section headed "Expenses and Charges" in the Explanatory Memorandum.

### Additional information

- You generally buy and redeem units at the Sub-Fund's next-determined Net Asset Value after the administrator receives your request in good order at or before 5:00 pm (Hong Kong time), being the Sub-Fund's dealing cut-off time. Before placing your subscription orders or redemption request, please check with your distributor for the distributor's internal dealing cut-off time (which may be earlier than the Sub-Fund's dealing cut-off time).
- The Sub-Fund's Net Asset Value and the latest subscription and redemption prices of units are available each business day on the Manager's website [www.valuepartners-group.com](http://www.valuepartners-group.com) (this website has not been reviewed by the SFC).
- You may obtain the past performance information of other unit classes offered to Hong Kong investors on the website [www.valuepartners-group.com](http://www.valuepartners-group.com) (this website has not been reviewed by the SFC).
- The compositions of the dividends (i.e. the relative amounts paid from net distributable income and capital) for the last 12 months will be available from the Manager on request and on the Manager's website.
- Investors may obtain information on the distributor(s) appointed in respect of the Sub-Fund by making a telephone enquiry with the Manager on (852) 2143 0688.
