

FRANKLIN  
TEMPLETON

**Product Key Facts**  
**Franklin Templeton Investment Funds -**  
**Franklin Global Growth Fund**

*Issuer: Franklin Templeton Investments (Asia) Limited*

*Last updated: July 2022*

- **This statement provides you with key information about this product.**
- **This statement is a part of the offering document.**
- **You should not invest in this product based on this statement alone.**

**Quick facts**

**Management company:** Franklin Templeton International Services S.à r.l.

**Investment manager(s):** Franklin Templeton Institutional, LLC, United States of America (internal delegation)

**Depositary:** J.P. Morgan SE, Luxembourg Branch

**Base currency:** USD

**Financial year end of this Fund:** 30 June

**Dealing frequency:** Every Hong Kong Business Day

**Minimum Investment:** USD 1,000 [initial] and USD 500 [subsequent purchases] or equivalent

**Ongoing charges over a year\*:**

Class A (acc) EUR: 1.86%

Class A (acc) USD: 1.86%

\*The ongoing charges figures are based on the semi-annual report for the period ended 31 December 2021. These figures may vary from year to year.

**Dividend policy:** Dividends, if declared, will be reinvested unless indicated by you in the application form to be paid out. Subject to any legal and regulatory requirements, the Fund may at its discretion pay dividends out of the capital or out of gross income of the Fund while charging / paying all or part of the Fund's fees and expenses to / out of the capital of the Fund, which results in an increase in distributable income for the payment of dividends by the Fund and therefore, the Fund may effectively pay dividends out of capital. The Fund may amend such distribution policy subject to the Securities and Futures Commission ("SFC")'s prior approval and by giving not less than one month's prior notice to investors. Any distributions involving payment of dividends out of the Fund's capital or payment of dividends effectively out of the Fund's capital (as the case may be) may result in an immediate reduction of the net asset value per share.

**What is this product?**

*This is a fund constituted in the form of a mutual fund. It is domiciled in Luxembourg and its home regulator is Commission de Surveillance du Secteur Financier.*

**Investment Objective and Policy**

*Franklin Global Growth Fund (the "Fund") aims to increase the value of its investments over the medium to long term.*

*The Fund seeks to achieve its objective by investing principally (that is, at least two-thirds of the Fund's net assets) in equity and equity-related transferable securities (including equity-linked notes, such as participatory notes) across the world. The Fund invests in listed equity securities in developed and emerging markets that may include but not limited to the United States, Switzerland, Denmark, Canada, Belgium, China and Argentina, generally in companies with a market capitalisation around or greater than USD 2 billion. The Fund's exposure to various industries, regions and markets may vary from time to time according to the Investment Manager's opinion as to the prevailing conditions and prospects for these markets.*

*The Investment Manager employs a disciplined, bottom-up investment approach to identify attractive investment opportunities that have higher expected\* revenue and earnings growth than their peers. The Investment Manager uses a growth investment style and in-depth, fundamental research to identify high-quality^ companies, across all industry groups, with sustainable business models that offer the most attractive combination of growth, quality and valuation.*

*In exceptional market circumstances (such as extreme volatility) and on a temporary basis only, 100% of the Fund's net assets may be invested in liquid assets, with due regard to the principle of risk spreading.*

*The Fund can invest on an ancillary basis in:*

- *units of UCITS and other UCIs (limited to 10% of assets)*
- *China A-Shares (through Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect) and China B-Shares (limited to 10% of the Fund's net assets)*

*The Fund may invest in financial derivative instruments for hedging purposes and efficient portfolio management, which may include, inter alia, swaps such as credit default swaps, forwards, futures contracts, as well as options on such contracts either dealt on Regulated Markets or over-the-counter.*

*The expected level of exposure that could be subject to securities lending transactions amounts to 5% of the Fund's net assets.*

*\*During qualitative research, the Investment Manager will identify the specific drivers that will enable a company to sustainably grow faster than its peers over a multi-year period. The investment opportunities are also subject to quantitative analysis which involves the modeling of financial statements to establish revenue and earnings growth expectations, as well as assess the quality of that growth.*

*\*The Investment Manager reviews and assesses a company's financial transparency, accounting quality and corporate governance.*

*The Investment Manager also seeks to understand a company's environmental management and social and labor policies which will provide a more comprehensive view of the return potential and risks of an investment in such company.*

## **Use of derivatives / investment in derivatives**

*The Fund's net derivative exposure may be up to 50% of the Fund's net asset value.*

## **What are the key risks?**

***Investment involves risks. Please refer to the offering document for details including the risk factors.***

- ***Market risk:*** *The market values of securities owned by the Fund will tend to go up or down, sometimes rapidly or unpredictably, due to factors affecting individual issuers, particular industries or sectors within securities markets, or because of general market conditions. During a general downturn in the securities markets, multiple asset classes (including different sectors of the same asset class) may decline in value at the same time. Similarly, when markets perform well, there can be no assurance that securities held by the Fund will participate in the advance. Because the securities the Fund holds fluctuate in price in this manner, the Fund's value may go down as well as up and investors may be adversely affected.*
- ***Equity risk:*** *Equity and equity-linked securities are subject to significant price movements due to various economic, political, market and issuer-specific factors. Such changes may adversely affect the value of equities regardless of issuer-specific performance. Additionally, different industries, financial markets and securities can react differently to these changes. Such fluctuations of the Fund's value are often exacerbated in the short-term. Financial markets trends (including feared or actual failures in the banking system) may also cause large fluctuations in the prices of such securities. As a result, the Fund may be adversely affected.*
- ***Emerging markets risk:*** *The Fund may invest in, or be exposed to, emerging markets, which may involve increased risks and special considerations not typically associated with investment in more developed markets. The risks of investing in emerging markets, which can adversely affect and/or result in a substantial loss to the Fund, may include: liquidity risks, currency risks/control, political and economic uncertainties, legal and taxation risks, settlement risks, custody risk and the likelihood of a high degree of volatility.*
- ***Foreign currency risk:*** *The Fund will typically invest to a significant degree in securities that are denominated in currencies other than the base currency of the Fund, exposing its investments to changes in foreign exchange rates and the possibility of exchange control regulations. Changes in currency exchange rates may adversely affect the value of the Fund, and also may affect the income earned by the Fund and gains and losses realized by the Fund. The Fund may seek to hedge currency exposure, which can limit the potential for currency gains. To the extent that the Fund seeks to hedge or protect against currency exchange risk, there is no guarantee that hedging or protection will be achieved, and the value of the Fund may be adversely*

affected. Furthermore, the total return for a share class that is denominated in a different currency (the “alternative currency”) from the base currency of the Fund may be affected, either positively or negatively, by changes in the exchange rate between the Fund’s base currency and the alternative currency.

- **Europe and Eurozone risk:** The Fund may invest in the Eurozone. Mounting sovereign debt burdens (e.g. any sovereigns within the Eurozone, which default on their debts, may be forced to restructure their debts and faced difficulties in obtaining credit or refinancing) and slowing economic growth among European countries, combined with uncertainties in European financial markets, including feared or actual failures in the banking system and the possible break-up of the Eurozone and Euro currency, may adversely affect interest rates and the prices of securities across Europe and potentially other markets as well. These events may increase volatility, liquidity and currency risks associated with investments in Europe. The aforesaid economic and financial difficulties in Europe may spread across Europe and as a result, a single or several European countries may exit the Eurozone or a sovereign within the Eurozone may default on its debts. In any event of the break-up of the Eurozone or Euro currency, the Fund may be exposed to additional operational or performance risks. While the European governments, the European Central Bank, and other authorities are taking measures (e.g. undertaking economic reforms and imposing austerity measures on citizens) to address the current fiscal conditions, these measures may not have the desired effect and therefore the future stability and growth of Europe is uncertain. The performance and value of the Fund may be adversely affected should there be any adverse credit events (e.g. downgrade of the sovereign credit rating or default or bankruptcy of any Eurozone countries).
- **Liquidity risk:** The Fund may not be able to easily sell securities due to adverse market conditions or reduced value or creditworthiness of issuers in which it invests. The inability of the Fund to sell securities or positions may also impede the ability of the Fund to meet redemption requests in a timely manner. Certain securities may also be illiquid due to limited trading markets or contractual restrictions on their resale. Reduced liquidity due to these factors may have an adverse impact on the net asset value of the Fund.
- **Non-regulated markets risk:** Some markets that the Fund invests in do not qualify as regulated due to their economic, legal, or regulatory structure, exposing the Fund to greater regulatory risk compared to funds that invest only in regulated market(s). The Fund may be adversely affected as a result.
- **Growth stocks risk:** Growth stocks can be more volatile and may be more expensive, relative to earnings, than the market in general. The Fund may be adversely affected by the greater volatility of investments in such stocks.
- **Smaller and midsize companies risk:** Stocks of smaller- and mid-sized companies tend to be less liquid and more volatile to adverse economic developments than larger, more recognized companies, particularly if such companies are in emerging markets, which results in higher risk for the Fund. The value and performance of the Fund may be adversely affected as a result.
- **Derivative instruments risk:** Derivative instruments involve cost, may be volatile, and may involve a leverage effect. A small market movement may give rise to a proportionately larger impact, which may cause substantial loss to the Fund. Other risks include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. In adverse situations, the Fund’s use of derivative instruments may become ineffective and the Fund may suffer significant losses.
- **Participatory notes risk:** The Fund may use participatory notes to obtain exposure to an equity investment, including common stocks and warrants, in a local market where direct ownership is not allowed. By investing in participatory notes, the Fund may be exposed not only to movements in the value of the underlying equity, but also to the risk of counterparty default, which may in the event of counterparty default result in a substantial loss to the Fund.
- **Swap agreements risk:** In a standard “swap” transaction, two parties agree to exchange the returns (or differential in rates of return) earned or realized on particular predetermined investments or instruments. Whether the Fund’s use of swap agreements will be successful in furthering its investment objective will depend on the ability of the investment manager to correctly predict whether certain types of investments are likely to produce greater returns than other investments. Swap agreements are illiquid and in the event of the default or bankruptcy of a swap agreement counterparty, the Fund may suffer a substantial loss.

- **Counterparty risk:** When over-the-counter (OTC) or other bilateral contracts are entered into (such as OTC derivatives, security lending etc.), the Fund may find itself exposed to risks arising from the solvency of its counterparties and from their ability to respect the condition of these contracts and the Fund/investors may be adversely impacted.
- **Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect risk:** The relevant rules and regulations on Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are subject to change which may have potential retrospective effect. The Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect is subject to quota limitations. Where a suspension in the trading through the programme is effected, the Fund's ability to invest in China A shares or access the PRC market through the programme will be adversely affected. In such event, the Fund's ability to achieve its investment objective could be negatively affected.
- **Chinese market risk:** The Fund is subject to the risks of the Chinese market and the value of the Fund may be susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory events affecting the Chinese market. The value and performance of the Fund may be adversely affected as a result.
- **Chinese short swing profit rule risk:** Under PRC laws, rules and regulations, the "short swing profit rule" may require the Fund to give up or return any profits made from purchases and sales in respect of China Connect securities of a particular PRC listed company if (a) the Fund's shareholding in such PRC listed company exceeds the threshold prescribed by the relevant China Connect Authority from time to time and (b) the corresponding sale transaction occurs within the six months after a purchase transaction, or vice versa. The Fund's assets may be frozen under PRC civil procedures to the extent of claims made by the PRC listed company. The inability to sell such assets and any obligations to return profits may adversely affect the performance of the Fund.
- **Securities lending risk:** Securities lending transactions may involve the risk that the borrower may fail to return the securities lent out in a timely manner and the value of the collateral may fall below the value of the securities lent out, which may result in a substantial loss to the Fund.
- **Dividend policy risk:** The Fund's dividend policy allows for payment of dividends out of capital or effectively out of capital. Where this is done, it amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the Fund's capital or payment of dividends effectively out of the Fund's capital (as the case may be) may result in an immediate reduction of the net asset value per share.

FRANKLIN  
TEMPLETON

#### How has the Fund performed?

■ The performance of the Fund in these years was achieved under circumstances that no longer apply up to 31 October 2020. The investment policy was changed in 2015 and 2020.

Note: On 19 January 2018, 2 sub-funds of Franklin Templeton Investment Funds not authorised by the Securities and Futures Commission merged into Franklin Templeton Investment Funds - Franklin Global Growth Fund (formerly known as Franklin World Perspectives Fund).

- *Past performance information is not indicative of future performance. Investors may not get back the full amount invested.*
- *The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividends reinvested.*
- *These figures show by how much class A (acc) USD increased or decreased in value during the calendar year being shown. Class A (acc) USD is the share class available in Hong Kong with the longest history in the Fund. Performance data has been calculated in USD, including ongoing charges and excluding subscription fee and redemption fee you might have to pay.*
- *Fund launch date: 14 October 2008*
- *Class A (acc) USD launch date: 14 October 2008*
- *Effective 25 February 2021, MSCI World Index-NR was added as the benchmark of the Fund to adhere to European disclosure rules regarding the use of benchmark.*

#### Is there any guarantee?

*This Fund does not have any guarantees. You may not get back the full amount of money you invest.*

## What are the fees and charges?

### Charges which may be payable by you

You may have to pay the following fees when dealing in the shares of the Fund.

Fee	What you pay
	<b>Class A</b>
<b>Subscription fee (Initial sales charge)</b>	<b>Up to 5.00% of the subscription amount</b>
<b>Switching fee (Switching charge)*</b>	<b>1.00% of the value of the shares being switched</b>
<b>Redemption fee (Redemption charge)</b>	<b>N/A</b>

### Ongoing fees payable by the Fund

The following expenses will be paid out of the Fund. They affect you because they reduce the return you get on your investments.

<b>Registrar and Transfer, Corporate, Domiciliary and Administrative Agent fee</b>	<b>Up to 0.2175%</b>
<b>Additional fixed amount per Shareholder account at each Class level</b>	<b>Up to USD 30 per annum</b>

\*The current fee level may be increased up to the maximum level permitted by the constitutive document of the Fund by giving one month's prior notice to the shareholders.

^The annual management charge as set out in the Explanatory Memorandum comprises the investment management fee and the maintenance charge, details of which are provided in the annual report of Franklin Templeton Investment Funds.

### Other fees

You may have to pay other fees and charges when dealing in the shares of the Fund.

### Additional Information

- You generally buy and redeem shares at the Fund's next determined net asset value (NAV) after the Hong Kong Representative, Franklin Templeton Investments (Asia) Limited, receives your request in good order on or before 4:00 p.m. (Hong Kong time) being the dealing cut-off time. Certain intermediaries may impose an earlier dealing cut-off time.
- The net asset value of this Fund is calculated and the price of shares is published on each business day. Information about prices is available online at [www.franklintempleton.com.hk](http://www.franklintempleton.com.hk).
- The compositions of the dividends (i.e. the relative amounts paid out of (i) net distributable income and (ii) capital) for the last 12 months are made available by the Hong Kong Representative on request and are also available online at [www.franklintempleton.com.hk](http://www.franklintempleton.com.hk).
- Investors may obtain the past performance information of other share classes offered to Hong Kong investors from the Hong Kong Representative's website at [www.franklintempleton.com.hk](http://www.franklintempleton.com.hk).
