**10 October 2022**

Dear Shareholder,

## **Schroder International Selection Fund (the "Company") - Change in delegation arrangement and other updates**

### **Change in delegation arrangement**

We are writing to inform you of a change in delegation arrangement of the funds of the Company which are authorised by the Securities and Futures Commission of Hong Kong (the "**SFC**")<sup>1</sup>, as set out in Appendix 2 (each an "**SISF SFC-Authorised Fund**").

As disclosed in the Prospectus of the Company, each investment manager may appoint one or more other Schroders group companies, at its own expense and responsibility, to manage all or part of the assets of a fund or to provide recommendations or advice on any part of the investment portfolio (each a "**Sub-Investment Manager**"). Any Sub-Investment Manager appointed by an investment manager may, in turn, appoint another Schroders group entity (each a "**Sub-Delegate**") to manage all or part of a fund's assets, subject to the prior written consent of the investment manager.

Currently, as disclosed in the Hong Kong offering documents of the Company, the investment managers of certain funds of the Company (each a "**Relevant Fund**"), at their own expense and responsibility, have allocated the investment management of certain proportion of the assets of the Relevant Funds to the Sub-Investment Managers. Details of the current arrangement of the Relevant Funds are set out in Appendix 1.

With effect from 11 November 2022, each investment manager may delegate discretionary investment management of the SISF SFC-Authorised Funds to one or more of the Sub-Investment Manager(s) as listed below. Each Sub-Investment Manager(s) may in turn, appoint one or more

---

<sup>1</sup> SFC authorization is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

Sub-Delegate(s) as listed below to manage all or part of the assets of the SISF SFC-Authorised Funds. As a global asset management group, the proposed arrangement will enable Schroders to leverage on the expertise of the different investment management entities and utilise investment management resources within the Schroders group more efficiently.

The management company, investment manager, Sub-Investment Managers and Sub-Delegates are all companies within Schroders group. The list of the Sub-Investment Managers and the Sub-Delegates (the “**List**”) is as follows:

<b>Sub-Investment Managers / Sub-Delegates</b>
Schroder Investment Management (Hong Kong) Limited
Schroder Investment Management (Singapore) Ltd
Schroder Investment Management North America Inc.
Schroder Investment Management Limited
Schroder Investment Management Australia Limited
Schroder Investment Management (Japan) Limited
Schroder Investment Management (Europe) S.A. – German Branch

Notwithstanding the proposed arrangement described above, it is not the current intention that Schroder Investment Management (Japan) Limited will appoint Schroder Investment Management (Singapore) Ltd to manage all or part of the assets of any SISF SFC-Authorised Fund, and vice versa.

Under the proposed arrangement, the entities set out in the List above may be appointed or removed as the Sub-Investment Manager(s) or Sub-Delegate(s) of one or more of the SISF SFC-Authorised Funds from time to time without any further notice to Shareholders. The List will be disclosed in the Company's Hong Kong offering document and any change to the List will be updated as soon as reasonably practicable. The list of the latest Sub-Investment Manager(s) and Sub-Delegate(s) of the SISF SFC-Authorised Funds will no longer be disclosed in the Hong Kong offering documents, but will be provided to Shareholders on request and shall be further disclosed in the Company's periodic reports, i.e. the audited annual reports and unaudited half-yearly reports of the Company.

Any addition or removal of entities to or from the List shall be subject to all applicable legal and regulatory requirements and the prior approval of the SFC. Shareholders will be given one month's prior notice in the case of any such addition of entities to the List and will be notified as soon as reasonably practicable in the case of any removal of the entities from the List.

Save as disclosed above, all other key features of the SISF SFC-Authorised Funds will remain the same and there will be no change to the risks applicable to the SISF SFC-Authorised Funds. There will be no change to the current fees and expenses payable to or borne by the SISF SFC-Authorised Funds or Shareholders. Save as disclosed above, there will be no change to the operation and/or manner in which the SISF SFC-Authorised Funds are being managed as a result of the proposed arrangement. The proposed arrangement will not have any material effect on Shareholders of

the SISF SFC-Authorised Funds. The proposed change is not expected to materially prejudice the rights or interests of existing investors.

Upon the proposed arrangement takes effect, the management company of the Company shall continue to have ongoing oversight and regular monitoring of the competence of its delegates to ensure that its accountability to Shareholders is not diminished. Although the investment management function of the management company may be delegated to the investment manager(s), Sub-Investment Manager(s), and/or Sub-Delegate(s), the management company's responsibilities and obligations will not be delegated.

### **Costs and expenses in respect of the change in delegation arrangement**

Any costs and expenses incurred in the proposed change including legal, audit and regulatory charges, will be borne by the Company. Such costs and expenses are expected to be insignificant and is estimated to be approximately less than 0.01% of the net asset value of the Company.

### **Options available to investors**

We hope that you will choose to remain invested in the SISF SFC-Authorised Funds following the change in the delegation arrangement as set out above, but if you do wish to redeem your holding in the SISF SFC-Authorised Funds before the change becomes effective, you may do so at any time up to and including the dealing cut-off at 5:00 p.m. Hong Kong time on **10 November 2022**. Please ensure that your redemption instruction reaches the Hong Kong Representative before this deadline. We will execute your redemption instructions in accordance with the provisions of the Company's Hong Kong offering documents, free of charge, although in some countries local paying agents, correspondent banks or similar agents might charge transaction fees. Local agents might also have a local dealing cut-off which is earlier than that described above, so please check with them to ensure that your instructions reach the Hong Kong Representative before the dealing cut-off at 5:00 p.m. Hong Kong time on **10 November 2022**.

### **Other miscellaneous updates**

Currently, various SISF SFC-Authorised Funds as set out in Appendix 3 do not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the SISF SFC-Authorised Fund's webpage (<https://www.schroders.com/en/hk/retail-investors/funds/fund-centre/><sup>2</sup>). From the date of this notice, the above information would be published on [www.schroders.com/en/lu/private-investor/gfc](https://www.schroders.com/en/lu/private-investor/gfc)<sup>3</sup>.

### **Updates to Hong Kong offering documents**

The Hong Kong offering documents of the Company will be revised to reflect the above changes / updates and will be available free of charge at [www.schroders.com.hk](https://www.schroders.com.hk)<sup>4</sup> or upon request from the Hong Kong Representative of the Company, Schroder Investment Management (Hong Kong) Limited.

**21 December 2021**

Dear Shareholder,

## **Schroder International Selection Fund (the "Company") – Change of depositary and administrator**

We are writing to inform you of a change of depositary and administrator of the Company and its sub-funds including those which are authorised by the Securities and Futures Commission ("**SFC**")<sup>1</sup> as set out in the Appendix A to this letter ("**Funds**").

### **Internal Restructuring of the Depositary and Administrator of the Company and the Funds**

Currently, J.P. Morgan Bank Luxembourg S.A. ("**JPMBL**") is the Depositary and Administrator of the Company and the Funds. JPMBL and its affiliates are collectively referred to as "JPMorgan" in this letter.

As part of an internal restructuring with the aim to streamline JPMorgan's banking entity structure across Europe, three banking entities in the JPMorgan group domiciled respectively in Germany, Luxembourg and Ireland and their branches across the region will be merged into a single European bank ("**Merger**"). The Merger requires the approval by the sole shareholder of the merging entities (i.e. J.P. Morgan International Finance Limited), which has been obtained in the end of November 2021. The date when the Merger takes legal effect will be the date on which the local court of Frankfurt registers the Merger in the commercial register (the "**Effective Date**"), which is expected to be on or around 22 January 2022.

JPMBL will be one of the impacted legal entities of the Merger. In particular, the Merger will involve JPMBL merging into J.P. Morgan AG, which in turn will simultaneously change its legal form from a German Stock Corporation (*Aktiengesellschaft*) to a European company (*Societas Europaea*) known as J.P. Morgan Societas Europaea ("**JPMSE**") organised under the laws of Germany with registered office at Taunustor 1 (TaunusTurm), 60310 Frankfurt am Main, Germany and registered with the commercial register of the local court of Frankfurt under number HRB 16861. It will be a credit institution subject to direct prudential supervision by the European Central Bank (ECB), the German Federal Financial Supervisory Authority

<sup>1</sup> SFC authorization is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

(*Bundesanstalt für Finanzdienstleistungsaufsicht*, BaFin) and Deutsche Bundesbank, the German Central Bank. All of JPMBL's assets and liabilities will be transferred to the Luxembourg Branch of JPMSE, which will operate as J.P. Morgan SE – Luxembourg Branch ("**JPMSE Luxembourg**").

We will notify you separately if there is any change in the Effective Date or any other material changes to the Merger.

The Commission de Surveillance du Secteur Financier ("**CSSF**") is the financial regulator in Luxembourg where the Company is domiciled and has been notified of the Merger. JPMSE Luxembourg is authorised by the CSSF to act as a depositary and fund administrator for Luxembourg undertakings for collective investment. The CSSF has confirmed no objection to JPMSE Luxembourg assuming the role of Depositary and Administrator of the Company and the Funds. JPMSE Luxembourg will be registered in the Luxembourg Trade and Companies' Register (RCS) under number B255938 and will be subject to the supervision of the home State supervisory authorities mentioned above, as well as local supervision by the CSSF.

On the Effective Date and in accordance with Luxembourg laws, JPMBL will cease to exist and the depositary and administration functions of JPMBL will transfer from JPMBL to JPMSE Luxembourg, and JPMSE Luxembourg will succeed JPMBL as the Depositary and Administrator of the Company and the Funds. JPMSE Luxembourg will assume all rights and obligations that JPMBL currently has under its existing agreements with the Company and accordingly the rights and obligations of the Company and the Funds with respect to the Depositary and Administrator will not be impacted. The business operations of JPMBL will be carried on without interruption by a locally fully passported, Luxembourg based branch of JPMSE (i.e. JPMSE Luxembourg) and the duties and obligations of JPMBL as stated in the Hong Kong offering documents and/or the constitutive documents of the Company and the Funds will be taken up by JPMSE Luxembourg as of the Effective Date. There will be no changes to the scope of services provided to the Company and the Funds, and no change in the level of fees payable by the Company and the Funds to the Depositary and Administrator. The address and contact details of the Depositary and Administrator will remain the same, and the personnel, functions and internal control measures of JPMSE Luxembourg will be substantially the same as those of JPMBL currently.

Save as disclosed above, there will be no other change in the operation or manner in which the Company and the Funds are being managed. There will be no impact on the features and risks applicable to the Company and the Funds. There will be no change to the fee level / cost in managing the Company and the Funds. The changes will not materially prejudice the shareholders' rights or interests. All costs (including the legal and other administrative costs) associated with the changes to the Company and the Funds above will be borne by Schroder Investment Management (Europe) S.A., the Company's management company.

The Hong Kong offering documents of the Company and the Funds will be revised to reflect the above change and will be available free of charge at [www.schroders.com.hk](http://www.schroders.com.hk)<sup>2</sup> or upon request from the Hong Kong Representative of the Company and the Funds, Schroder Investment Management (Hong Kong) Limited.

### **Options available to investors**

## What is this product?

This is a sub-fund of Schroder International Selection Fund, a mutual fund domiciled in Luxembourg and its home regulator is Commission de Surveillance du Secteur Financier.

## Objectives and investment strategy

### Investment Objective

The fund aims to provide an absolute return of capital growth and income after fees have been deducted by investing in fixed and floating rate securities in emerging markets. Absolute return means the fund seeks to provide a positive return over a 12 month period in all market conditions, but this cannot be guaranteed and your capital is at risk.

### Investment Policy

The fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities, currencies and money market investments in emerging markets. The fixed and floating rate securities are issued by governments, government agencies, supra-nationals and companies. The fund may also hold cash.

In aiming to deliver an absolute return, the fund may hold up to 40% of its assets in cash and money market investments in developed markets.

The fund may invest in excess of 50% of its assets in fixed and floating rate securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The fund may invest up to 100% of its assets in sub-investment grade fixed and floating rate securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies) and unrated securities issued by corporate issuers in emerging markets. The investment manager will assess credit risks of fixed income instruments based on quantitative and qualitative fundamentals, including without limitation the issuer's leverage, operating margin, return on capital, interest coverage, operating cash flows, industry outlook, firm's competitive position and corporate governance issue. For this purpose, if the relevant security does not itself have a credit rating, then reference can be made to the rating of the issuer of the security. If both the security and the relevant issuer are not rated, then the security will be classified as unrated.

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds and warrants (subject to the restrictions provided in Appendix I of the Prospectus).

To achieve the investment objective and to make use of the best risk-return investment opportunities, the fund may invest more than 10% (but no more than 20%) of its net assets in debt securities issued and/or guaranteed by a single sovereign issuer (e.g. Hungary and Turkey which are, as at the date of this document, unrated or rated below investment grade) on the basis of, for example, economic fundamentals, country risk, security valuation and other compelling investment performance rationale. Due to market movements, as well as changes in credit or investment ratings, the fund's overall exposure to such assets may change over time. The above countries are for reference only and may change without prior notice to the investors. Investors should note that whilst the above sets out the expected maximum exposure to a single country of this nature, such exposure limit is not indicative of the funds' holdings at any time in relevant countries.

Where a fund invests more than 10% of its net asset value in debt securities issued by governments or agencies of any single country, adverse economic, market, political or regulatory conditions and unfavourable developments in a particular country or region will adversely affect the performance of the fund and may result in significant losses to investors.

The fund is not subject to any limitation on the portion of its net asset value that may be invested in any country, region or sector.

The fund may invest up to 10% of its net asset value in debt instruments with loss-absorption features (e.g. contingent convertible bonds, Additional Tier 1 and Tier 2 capital notes, senior and senior non-preferred notes, bail-in bonds, capital security bonds, subordinated Tier 2 capital notes, subordinated Additional Tier 1 capital notes and subordinated Lower Tier 2 capital notes). These instruments may be subject to contingent write-down or contingent conversion to ordinary shares on the occurrence of trigger events.

Under exceptional circumstances (e.g. market crash or major crisis), the fund may be invested temporarily up to 100% of its net asset value in liquid assets such as bank deposits, certificates of deposit, commercial paper and treasury bills for cash flow management.

The fund will not hold more than 5% of its net asset value in onshore Chinese bonds and other debt instruments traded on the China Interbank Bond Market via Bond Connect (as further described in the section headed "Overview of China Interbank Bond Market" in the Hong Kong Covering Document).

The fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the fund more efficiently. Derivatives may be employed for instance to generate additional income from exposure to credit risk in purchasing or selling protection through credit default swaps, adjusting the fund's duration through the tactical use of interest related derivatives, generating additional income through inflation or volatility linked derivatives or increasing its currency exposure through the use of currency related derivatives. Derivatives could also be employed to create synthetic instruments. Such derivatives include over-the-counter and/or exchange traded options, futures, warrants, swaps, forward contracts and/or a combination of the above.

The fund maintains a higher overall sustainability score than 50% JPM GBI-EM Diversified Index and 50% JPM EMBI Diversified Index based on the investment manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section of the Fund Details, as set out in Appendix III of the Prospectus.

The fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the fund's webpage, accessed via <https://www.schroders.com/en/hk/retail-investors/funds/fund-centre><sup>1</sup>.

#### Benchmark

The fund's performance should be assessed against its objective of providing a positive return over a 12-month period in all market conditions. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund.

### **Use of derivatives / investment in derivatives**

The fund's net derivative exposure may be up to 50% of the fund's net asset value.

### **What are the key risks?**

**Investment involves risk. Please refer to the offering document for details including the risk factors.**

#### **1. Risk relating to investment in debt securities**

- **Credit and counterparty risk** – Investment in debt securities is subject to the credit/default risk of the issuer which may also adversely affect the settlement of the securities.
- **Interest rate risks** – Investment in the fund is subject to interest rate risk. In general, the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise.
- **Below investment grade and unrated debt securities** – Investments in fixed income securities below investment grade or unrated are generally subject to higher degree of counterparty risk, credit risk, volatility risk, liquidity risk and risk of loss of principal and interest than higher rated securities.
- **Credit ratings risk** – Credit ratings assigned by rating agencies are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times.
- **Credit downgrading risk** – The credit rating of debt securities or their issuers may subsequently be downgraded. In the event of such downgrading, the value of the fund may be adversely affected. The investment manager may not dispose of such securities immediately and the fund may therefore be subject to additional risk of loss.
- **Liquidity and volatility risk** – Securities not listed or rated or actively traded may have low liquidity and higher volatility. The prices of such securities may be subject to fluctuations. The bid and offer spread of their price may be high and the fund may therefore incur significant trading costs and may even suffer losses when selling such instruments.
- **Valuation risk** – Valuation of the fund's investment may involve uncertainties and judgmental determinations. If such valuation turns out to be incorrect, this may affect the net asset value calculation of the fund.

**2. Emerging and less developed markets**

The fund may invest in emerging and less developed markets. Investing in emerging and less developed markets is subject to greater risks than investing in securities of developed countries such as ownership and custody risks, political and economic risks, market and settlement risks, liquidity and volatility risk, legal and regulatory risks, execution and counterparty risk, and currency risk, which may adversely affect the net asset value per share of the fund and investors may as a result suffer losses.

**3. Sovereign debt risk**

Investment in sovereign debt obligations issued or guaranteed by governments or their agencies of certain developing countries and certain developed countries may expose the fund to political, social and economic risks. A government entity's willingness or ability to repay principal and interest due in a timely manner may be affected by various factors. In the event that a government entity defaults on its sovereign debt, holders of sovereign debt, including the fund, may be requested to participate in the rescheduling of such debt and to extend further loans to the relevant government entity. The fund may suffer significant losses in such events.

**4. Below investment grade and non-rated sovereign securities risk**

The fund may have investment of more than 10% (but no more than 20%) of its net assets in securities issued and/or guaranteed by government, public or local authority of a single sovereign country that is unrated or rated below investment grade (e.g. Hungary and Turkey which are, as at the date of this document, unrated or rated below investment grade). Such investment would generally be considered to have greater market and credit risks than higher rated sovereign securities. The lower ratings of such sovereign securities reflect the greater possibility that adverse changes in the financial condition of the sovereign issuer, or the bankruptcy of the sovereign issuer, may impair the ability of the sovereign issuer to make payments of principal and/or interest. If the sovereign issuer of a security is in default or such a security performs badly, the fund may potentially suffer substantial loss. Where the fund invests a relatively significant portion of its net assets in countries belonging to same geographical region, the geographical concentration of the fund's investment may expose the fund to greater volatility and higher risk than investing in a more diversified portfolio. The market for these below investment grade or non-rated sovereign securities may be less active and the level of liquidity is relatively low, making it more difficult to sell the securities and hence adversely affecting the net asset value of the fund.

**5. Absolute return objective**

While the fund aims to achieve absolute performance, there may be circumstances that negative returns could be generated. Investors should therefore not interpret it to mean or imply that absolute return is guaranteed.

**6. Concentrated geographical locations**

The fund investing in concentrated geographical locations may be subject to a higher level of risks comparing to a fund investing in a more diversified portfolio/strategy. The value of the fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event affecting the relevant geographical locations.

## 7. Derivatives

The fund may use derivatives to meet its specific investment objective. There is no guarantee that the performance of derivatives will result in a positive effect for the fund. Derivative exposure may lead to a high risk of significant capital loss. Risks associated with derivatives include credit risk and counterparty risk, liquidity risk, valuation risk, volatility risk, over-the-counter transaction risks and hedging risk. The leverage element/component of derivatives can result in a loss significantly greater than the amount invested in the derivatives by the fund. There is no guarantee that the desired hedging instruments will be available or hedging techniques will achieve their desired result. In adverse situations, the use of hedging instruments may become ineffective in hedging and the fund may suffer significant losses.

## 8. Risks relating to distributions

- For distribution share classes with a general dividend policy, expenses will be paid out of capital rather than out of gross income. The amount of distributable income therefore increases and the amount so increased may be considered to be dividend paid out of capital; capital growth will be reduced and in periods of low growth capital erosion may occur.
- Distribution share classes with a fixed dividend policy will distribute the dividends based on a fixed amount or fixed percentage of the net asset value per share. This may result in share classes with fixed distributions either paying out both income and capital in distribution payments, or not substantially distributing all the investment income which a share class has earned.
- Investments in distribution share classes with fixed dividend policy are not an alternative to a savings account or fixed-interest paying investment. The percentage of distributions paid by distribution share classes with fixed dividend policy is unrelated to expected or past income or returns of these share classes or the fund. The distribution can thus be higher or lower than the income and return that were effectively realised.
- Distribution share classes with fixed dividend policy will continue to distribute in periods that the fund has negative returns or is making losses, which further reduces the net asset value of the distribution Share Classes with fixed dividend policy. In extreme circumstances, investors may not be able to get back the original investment amount.
- Investors should note that a positive distribution yield does not imply a positive return. Distribution share classes with a fixed dividend policy do not distribute a fixed amount and the constant percentage of distribution results in higher absolute distributions when the net asset value of the relevant Distribution share classes with fixed dividend policy is high, and lower absolute distributions when the net asset value of the relevant distribution share classes with fixed dividend policy is low.
- **You should note that in the circumstances where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the net asset value per share.**
- The distribution amount and net asset value of the currency hedged share class may be adversely affected by differences in the interest rates of the reference currency of the currency hedged share classes and the fund's base currency, resulting in an increase in the amount of distribution that is paid out of capital and hence a greater erosion of capital than other non-currency hedged share classes.

**9. Risks relating to hedging and the hedged classes**

- In respect of the share classes which the management company of the fund has the ability to fully hedge the shares of such share classes in relation to the fund currency, currency exposures or currency hedging transactions within the fund's portfolio will not be considered. The aim of a currency hedged share class is to provide you with the performance returns of the fund's investments by reducing the effects of exchange rate fluctuations between the fund currency and the reference currency. However there is no assurance that the hedging strategies employed will be effective in fully eliminating the currency exposure to the reference currency thereby delivering performance differentials that are reflective only of interest rate differences adjusted for fees.
- Where undertaken, the effects of this hedging will be reflected in the net asset value and, therefore, in the performance of such share class. Similarly, any expenses arising from such hedging transactions will be borne by the share class in relation to which the expenses have been incurred.
- It should be noted that, where relevant, these hedging transactions may be entered into whether the reference currency is declining or increasing in value relative to the relevant fund currency and so, where such hedging is undertaken it may substantially protect investors in the relevant share class against a decrease in the value of the fund currency relative to the reference currency, but it may also preclude investors from benefiting from an increase in the value of the fund currency.

**10. Currency risks**

Assets and share classes may be denominated in currencies other than USD and some may not be freely convertible. The fund may be adversely affected by changes in foreign exchange rates and exchange rate controls of the currencies in which securities are held, the reference currencies of the share classes and the US Dollar. This exposes all share classes of the fund to exchange rate fluctuations and currency risk. It may not be practicable or possible to hedge against such foreign exchange/currency risk exposure.

## How has the fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-To-NAV, with dividend reinvested.
- These figures show by how much the fund's Class A USD Accumulation increased or decreased in value during the calendar year being shown. Performance data has been calculated in USD including ongoing charges and excluding subscription fee and redemption fee you might have to pay.
- Fund launch date: 1997
- Class A USD Accumulation launch date: 2000
- The management company views the Class A USD Accumulation, being the retail share class denominated in the base currency of the fund, as the most appropriate representative share class of the fund.

Note: The performance of these years was achieved under circumstances that no longer apply. During these years, there was material change(s) to the fund, namely, changes of investment objective and policy and reduction of fee(s).

## Is there any guarantee?
