26 October 2022

Dear Shareholder,

Schroder International Selection Fund (the "Company") – Changes to investment policies of the Funds

We are writing to inform you on the changes to the investment policies of the Funds (as defined below) in respect of investment in debt instruments issued by financial institutions with loss-absorption features ("**LAPs**") (e.g. contingent convertible bonds, Additional Tier 1, Tier 1 and Tier 2 capital notes, senior non-preferred notes, senior and subordinated bonds issued by holding companies of a financial institution) with effect from 28 November 2022 (the "**Effective Date**"). These changes are made in order to allow greater investment flexibility and/or expand the investment universe of the Funds.

Investment Policy Change

With effect from the Effective Date, the investment limit in LAPs of the following sub-funds of the Company (each a "**Fund**" and collectively the "**Funds**") will be changed as follows:

Funds	Limit of Fund's investment in LAPs (% of the Fund's Net Asset Value)	
	Prior to the Effective Date	With effect from the Effective Date
Schroder International Selection Fund – EURO Corporate Bond	Less than 30%	Less than 50%
Schroder International Selection Fund – Global Corporate Bond	Less than 30%	Less than 50%
Schroder International Selection Fund – US Dollar Bond	Less than 30%	Less than 50%

Schroder International Selection Fund – Emerging Markets Multi-Asset	Up to 15%	Up to 20%
Schroder International Selection Fund – Global Multi-Asset Income	Up to 15%	Up to 20%
Schroder International Selection Fund – Multi-Asset Growth and Income	Up to 15%	Up to 20%
Schroder International Selection Fund – Sustainable Multi-Asset Income	Up to 15%	Up to 20%
Schroder International Selection Fund – Global Inflation Linked Bond	0%	Up to 10%

Accordingly, with effect from the Effective Date, the investment policies of the Funds in respect of investment in LAPs will change in the manner set out below.

EURO Corporate Bond, Global Corporate Bond and US Dollar Bond

The investment policies of EURO Corporate Bond, Global Corporate Bond and US Dollar Bond will change from:

“The fund may invest less than 30% of its net asset value in debt instruments with loss-absorption features (e.g. contingent convertible bonds, Additional Tier 1 and Tier 2 capital notes, senior and senior non-preferred notes, bail-in bonds, capital security bonds, subordinated Tier 2 capital notes, subordinated Additional Tier 1 capital notes and subordinated Lower Tier 2 capital notes). These instruments may be subject to contingent write-down or contingent conversion to ordinary shares on the occurrence of trigger events.”

To:

“The fund may invest less than 50% of its net asset value in debt instruments issued by financial institutions with loss-absorption features (e.g. contingent convertible bonds, Additional Tier 1, Tier 1 and Tier 2 capital notes, senior non-preferred notes, senior and subordinated bonds issued by holding companies of a financial institution). These instruments may be subject to contingent write-down or contingent conversion to ordinary shares on the occurrence of trigger events.”

Emerging Markets Multi-Asset, Global Multi-Asset Income, Multi-Asset Growth and Income and Sustainable Multi-Asset Income

The investment policies of Emerging Markets Multi-Asset, Global Multi-Asset Income, Multi-Asset Growth and Income and Sustainable Multi-Asset Income will change from:

“The fund may invest up to 15% of its net asset value in debt instruments with loss-absorption features (e.g. contingent convertible bonds, Additional Tier 1 and Tier 2 capital notes, senior and senior non-preferred notes, bail-in bonds, capital security bonds, subordinated Tier 2 capital notes, subordinated Additional Tier 1 capital notes and subordinated Lower Tier 2 capital notes). These instruments may be subject to contingent

write-down or contingent conversion to ordinary shares on the occurrence of trigger events.”

To:

“The fund may invest up to 20% of its net asset value in debt instruments issued by financial institutions with loss-absorption features (e.g. contingent convertible bonds, Additional Tier 1, Tier 1 and Tier 2 capital notes, senior non-preferred notes, senior and subordinated bonds issued by holding companies of a financial institution). These instruments may be subject to contingent write-down or contingent conversion to ordinary shares on the occurrence of trigger events.”

Global Inflation Linked Bond

The following disclosures will be added to Global Inflation Linked Bond’s investment policy:

“The fund may invest up to 10% of its net asset value in debt instruments issued by financial institutions with loss-absorption features (e.g. contingent convertible bonds, Additional Tier 1, Tier 1 and Tier 2 capital notes, senior non-preferred notes, senior and subordinated bonds issued by holding companies of a financial institution). These instruments may be subject to contingent write-down or contingent conversion to ordinary shares on the occurrence of trigger events.”

Implication of the proposed changes

As a result of the changes in investment policies as set out above, (i) Global Inflation Linked Bond will be subject to additional risks associated with investment in LAPs (“**LAP Risks**”) (as disclosed in the Hong Kong offering documents); and (ii) EURO Corporate Bond, Global Corporate Bond and US Dollar Bond will be subject to an increased LAP Risks when utilizing the greater investment flexibility and the LAP Risks (as disclosed in the Hong Kong offering documents) will become one of the key risks for these Funds.

Save as disclosed above, (i) all other key features of the Funds (including fees chargeable in respect of the Funds as stated in the Hong Kong offering documents) will remain the same; (ii) there will be no material change to the risks applicable to the Funds and the operation and/or manner in which the Funds are being managed as a result of the changes set out above. The changes are not expected to materially prejudice the rights or interests of existing investors.

Costs and expenses in respect of the changes

Any costs and expenses incurred in the above changes including legal, audit and regulatory charges, which are estimated to be approximately less than 0.01% of the net asset value of each of the Funds, will be borne by the relevant Fund. Such costs and expenses are expected to be insignificant.

The Hong Kong offering documents of the Company (comprising the Hong Kong Covering Document and Product Key Facts Statement of the Funds) will be revised to reflect the above changes and will be available free of charge at www.schroders.com.hk¹ or upon request from the

¹ This website has not been reviewed by the SFC.

Hong Kong Representative of the Company, Schroder Investment Management (Hong Kong) Limited.

Redeeming or switching your shares to another Schroders fund

We hope that you will choose to remain invested in the Funds following the changes, but if you do wish to redeem your holding in the Funds or to switch into another of the Company's sub-funds authorized by the Securities and Futures Commission ("SFC")² before the Effective Date, you may do so at any time up to and including the dealing cut-off at 5:00 p.m. Hong Kong time on **25 November 2022**. Please ensure that your redemption or switch instruction reaches the Hong Kong Representative before this deadline. We will execute your redemption or switch instructions in accordance with the provisions of the Company's Hong Kong offering documents, free of charge, although in some countries local paying agents, correspondent banks or similar agents might charge transaction fees. Local agents might also have a local dealing cut-off which is earlier than that described above, so please check with them to ensure that your instructions reach the Hong Kong Representative before the dealing cut-off at 5:00 p.m. Hong Kong time on **25 November 2022**.

Enquiries

If you have any questions or would like more information, please contact your usual professional advisor or the Hong Kong Representative at Level 33, Two Pacific Place, 88 Queensway, Hong Kong or calling the Schroders Investor Hotline on (+852) 2869 6968.

Yours faithfully,

The Board of Directors

10 October 2022

Dear Shareholder,

Schroder International Selection Fund (the "Company") - Change in delegation arrangement and other updates

Change in delegation arrangement

We are writing to inform you of a change in delegation arrangement of the funds of the Company which are authorised by the Securities and Futures Commission of Hong Kong (the "**SFC**")¹, as set out in Appendix 2 (each an "**SISF SFC-Authorised Fund**").

As disclosed in the Prospectus of the Company, each investment manager may appoint one or more other Schroders group companies, at its own expense and responsibility, to manage all or part of the assets of a fund or to provide recommendations or advice on any part of the investment portfolio (each a "**Sub-Investment Manager**"). Any Sub-Investment Manager appointed by an investment manager may, in turn, appoint another Schroders group entity (each a "**Sub-Delegate**") to manage all or part of a fund's assets, subject to the prior written consent of the investment manager.

Currently, as disclosed in the Hong Kong offering documents of the Company, the investment managers of certain funds of the Company (each a "**Relevant Fund**"), at their own expense and responsibility, have allocated the investment management of certain proportion of the assets of the Relevant Funds to the Sub-Investment Managers. Details of the current arrangement of the Relevant Funds are set out in Appendix 1.

With effect from 11 November 2022, each investment manager may delegate discretionary investment management of the SISF SFC-Authorised Funds to one or more of the Sub-Investment Manager(s) as listed below. Each Sub-Investment Manager(s) may in turn, appoint one or more

¹ SFC authorization is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

Sub-Delegate(s) as listed below to manage all or part of the assets of the SISF SFC-Authorised Funds. As a global asset management group, the proposed arrangement will enable Schroders to leverage on the expertise of the different investment management entities and utilise investment management resources within the Schroders group more efficiently.

The management company, investment manager, Sub-Investment Managers and Sub-Delegates are all companies within Schroders group. The list of the Sub-Investment Managers and the Sub-Delegates (the “**List**”) is as follows:

Sub-Investment Managers / Sub-Delegates
Schroder Investment Management (Hong Kong) Limited
Schroder Investment Management (Singapore) Ltd
Schroder Investment Management North America Inc.
Schroder Investment Management Limited
Schroder Investment Management Australia Limited
Schroder Investment Management (Japan) Limited
Schroder Investment Management (Europe) S.A. – German Branch

Notwithstanding the proposed arrangement described above, it is not the current intention that Schroder Investment Management (Japan) Limited will appoint Schroder Investment Management (Singapore) Ltd to manage all or part of the assets of any SISF SFC-Authorised Fund, and vice versa.

Under the proposed arrangement, the entities set out in the List above may be appointed or removed as the Sub-Investment Manager(s) or Sub-Delegate(s) of one or more of the SISF SFC-Authorised Funds from time to time without any further notice to Shareholders. The List will be disclosed in the Company's Hong Kong offering document and any change to the List will be updated as soon as reasonably practicable. The list of the latest Sub-Investment Manager(s) and Sub-Delegate(s) of the SISF SFC-Authorised Funds will no longer be disclosed in the Hong Kong offering documents, but will be provided to Shareholders on request and shall be further disclosed in the Company's periodic reports, i.e. the audited annual reports and unaudited half-yearly reports of the Company.

Any addition or removal of entities to or from the List shall be subject to all applicable legal and regulatory requirements and the prior approval of the SFC. Shareholders will be given one month's prior notice in the case of any such addition of entities to the List and will be notified as soon as reasonably practicable in the case of any removal of the entities from the List.

Save as disclosed above, all other key features of the SISF SFC-Authorised Funds will remain the same and there will be no change to the risks applicable to the SISF SFC-Authorised Funds. There will be no change to the current fees and expenses payable to or borne by the SISF SFC-Authorised Funds or Shareholders. Save as disclosed above, there will be no change to the operation and/or manner in which the SISF SFC-Authorised Funds are being managed as a result of the proposed arrangement. The proposed arrangement will not have any material effect on Shareholders of

the SISF SFC-Authorised Funds. The proposed change is not expected to materially prejudice the rights or interests of existing investors.

Upon the proposed arrangement takes effect, the management company of the Company shall continue to have ongoing oversight and regular monitoring of the competence of its delegates to ensure that its accountability to Shareholders is not diminished. Although the investment management function of the management company may be delegated to the investment manager(s), Sub-Investment Manager(s), and/or Sub-Delegate(s), the management company's responsibilities and obligations will not be delegated.

Costs and expenses in respect of the change in delegation arrangement

Any costs and expenses incurred in the proposed change including legal, audit and regulatory charges, will be borne by the Company. Such costs and expenses are expected to be insignificant and is estimated to be approximately less than 0.01% of the net asset value of the Company.

Options available to investors

We hope that you will choose to remain invested in the SISF SFC-Authorised Funds following the change in the delegation arrangement as set out above, but if you do wish to redeem your holding in the SISF SFC-Authorised Funds before the change becomes effective, you may do so at any time up to and including the dealing cut-off at 5:00 p.m. Hong Kong time on **10 November 2022**. Please ensure that your redemption instruction reaches the Hong Kong Representative before this deadline. We will execute your redemption instructions in accordance with the provisions of the Company's Hong Kong offering documents, free of charge, although in some countries local paying agents, correspondent banks or similar agents might charge transaction fees. Local agents might also have a local dealing cut-off which is earlier than that described above, so please check with them to ensure that your instructions reach the Hong Kong Representative before the dealing cut-off at 5:00 p.m. Hong Kong time on **10 November 2022**.

Other miscellaneous updates

Currently, various SISF SFC-Authorised Funds as set out in Appendix 3 do not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the SISF SFC-Authorised Fund's webpage (<https://www.schroders.com/en/hk/retail-investors/funds/fund-centre/>²). From the date of this notice, the above information would be published on www.schroders.com/en/lu/private-investor/gfc³.

Updates to Hong Kong offering documents

The Hong Kong offering documents of the Company will be revised to reflect the above changes / updates and will be available free of charge at www.schroders.com.hk⁴ or upon request from the Hong Kong Representative of the Company, Schroder Investment Management (Hong Kong) Limited.

IMPORTANT: This letter is important and requires your immediate attention. If you have any questions about the content of this letter, you should seek independent professional advice. Schroder Investment Management (Europe) S.A., as the Management Company to Schroder International Selection Fund, accepts full responsibility for the accuracy of the information contained in this letter and confirms, having made all reasonable enquiries, that to the best of its knowledge and belief there are no other facts the omission of which would make any statement misleading.

21 December 2021

Dear Shareholder,

Schroder International Selection Fund (the "Company") – Change of depositary and administrator

We are writing to inform you of a change of depositary and administrator of the Company and its sub-funds including those which are authorised by the Securities and Futures Commission ("**SFC**")¹ as set out in the Appendix A to this letter ("**Funds**").

Internal Restructuring of the Depositary and Administrator of the Company and the Funds

Currently, J.P. Morgan Bank Luxembourg S.A. ("**JPMBL**") is the Depositary and Administrator of the Company and the Funds. JPMBL and its affiliates are collectively referred to as "JPMorgan" in this letter.

As part of an internal restructuring with the aim to streamline JPMorgan's banking entity structure across Europe, three banking entities in the JPMorgan group domiciled respectively in Germany, Luxembourg and Ireland and their branches across the region will be merged into a single European bank ("**Merger**"). The Merger requires the approval by the sole shareholder of the merging entities (i.e. J.P. Morgan International Finance Limited), which has been obtained in the end of November 2021. The date when the Merger takes legal effect will be the date on which the local court of Frankfurt registers the Merger in the commercial register (the "**Effective Date**"), which is expected to be on or around 22 January 2022.

JPMBL will be one of the impacted legal entities of the Merger. In particular, the Merger will involve JPMBL merging into J.P. Morgan AG, which in turn will simultaneously change its legal form from a German Stock Corporation (*Aktiengesellschaft*) to a European company (*Societas Europaea*) known as J.P. Morgan Societas Europaea ("**JPMSE**") organised under the laws of Germany with registered office at Taunustor 1 (TaunusTurm), 60310 Frankfurt am Main, Germany and registered with the commercial register of the local court of Frankfurt under number HRB 16861. It will be a credit institution subject to direct prudential supervision by the European Central Bank (ECB), the German Federal Financial Supervisory Authority

¹ SFC authorization is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

(*Bundesanstalt für Finanzdienstleistungsaufsicht*, BaFin) and Deutsche Bundesbank, the German Central Bank. All of JPMBL's assets and liabilities will be transferred to the Luxembourg Branch of JPMSE, which will operate as J.P. Morgan SE – Luxembourg Branch ("**JPMSE Luxembourg**").

We will notify you separately if there is any change in the Effective Date or any other material changes to the Merger.

The Commission de Surveillance du Secteur Financier ("**CSSF**") is the financial regulator in Luxembourg where the Company is domiciled and has been notified of the Merger. JPMSE Luxembourg is authorised by the CSSF to act as a depositary and fund administrator for Luxembourg undertakings for collective investment. The CSSF has confirmed no objection to JPMSE Luxembourg assuming the role of Depositary and Administrator of the Company and the Funds. JPMSE Luxembourg will be registered in the Luxembourg Trade and Companies' Register (RCS) under number B255938 and will be subject to the supervision of the home State supervisory authorities mentioned above, as well as local supervision by the CSSF.

On the Effective Date and in accordance with Luxembourg laws, JPMBL will cease to exist and the depositary and administration functions of JPMBL will transfer from JPMBL to JPMSE Luxembourg, and JPMSE Luxembourg will succeed JPMBL as the Depositary and Administrator of the Company and the Funds. JPMSE Luxembourg will assume all rights and obligations that JPMBL currently has under its existing agreements with the Company and accordingly the rights and obligations of the Company and the Funds with respect to the Depositary and Administrator will not be impacted. The business operations of JPMBL will be carried on without interruption by a locally fully passported, Luxembourg based branch of JPMSE (i.e. JPMSE Luxembourg) and the duties and obligations of JPMBL as stated in the Hong Kong offering documents and/or the constitutive documents of the Company and the Funds will be taken up by JPMSE Luxembourg as of the Effective Date. There will be no changes to the scope of services provided to the Company and the Funds, and no change in the level of fees payable by the Company and the Funds to the Depositary and Administrator. The address and contact details of the Depositary and Administrator will remain the same, and the personnel, functions and internal control measures of JPMSE Luxembourg will be substantially the same as those of JPMBL currently.

Save as disclosed above, there will be no other change in the operation or manner in which the Company and the Funds are being managed. There will be no impact on the features and risks applicable to the Company and the Funds. There will be no change to the fee level / cost in managing the Company and the Funds. The changes will not materially prejudice the shareholders' rights or interests. All costs (including the legal and other administrative costs) associated with the changes to the Company and the Funds above will be borne by Schroder Investment Management (Europe) S.A., the Company's management company.

The Hong Kong offering documents of the Company and the Funds will be revised to reflect the above change and will be available free of charge at www.schroders.com.hk² or upon request from the Hong Kong Representative of the Company and the Funds, Schroder Investment Management (Hong Kong) Limited.

Options available to investors

We hope that you will choose to remain invested in the Funds following these changes, but if you do wish to redeem your holding in the Funds before the changes become effective, you may do so at any time up

Objectives and investment strategyInvestment Objective

The fund aims to provide capital growth and income in excess of the ICE BofA Merrill Lynch Global Governments Inflation-Linked EUR Hedged index after fees have been deducted over a three to five year period^{Note} by investing in inflation-linked fixed income securities.

Investment Policy

The fund is actively managed and invests at least two-thirds of its assets in inflation-linked fixed income securities with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schrodors ratings for non-rated bonds) issued by governments, government agencies, supra-nationals and companies worldwide.

The investment manager will assess credit risks of fixed income instruments based on quantitative and qualitative fundamentals, including without limitation the issuer's leverage, operating margin, return on capital, interest coverage, operating cash flows, industry outlook, firm's competitive position and corporate governance issue. For this purpose, if the relevant security does not itself have a credit rating, then reference can be made to the rating of the issuer of the security. If both the security and the relevant issuer are not rated, then the security will be classified as unrated.

The global inflation-linked bond market is global and thus the specific structures and terms of bonds issued can vary depending on the issuing entity. For example, US Treasury Inflation Protected Securities, or 'TIPS', guard an investor's savings from inflation. They pay a fixed rate of interest. The value of the principal of a TIPS is adjusted semi-annually, based on changes in the Consumer Price Index. The interest rate is applied to the inflation-adjusted principal, not the original face value. So, if inflation occurs throughout the life of the security, every interest payment will be greater than the one before it. The converse is true however, in the event of deflation. Upon maturity, the US Treasury will pay the greater of either the inflation-adjusted principal or the original face value.

The fund is designed to match the general thematic of inflation and not the inflation of individual country.

The fund is not subject to any limitation on the portion of its net asset value that may be invested in any country (including emerging market countries), region or sector.

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in Appendix I of the Prospectus).

Under exceptional circumstances (e.g. market crash or major crisis), the fund may be invested temporarily up to 100% of its net asset value in liquid assets such as bank deposits, certificates of deposit, commercial paper and treasury bills for cash flow management.

The fund has the flexibility to implement long and short active currency positions via derivatives such as currency forwards. Long and short active currency positions implemented by the fund can be uncorrelated to the underlying assets of the fund. The fund may use derivatives such as currency forwards, options on currency forwards and spots to hedge out any unwanted currency risk and/or to capture potential outperformance of a particular currency versus another.

The fund may use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the fund more efficiently. Where the fund uses total return swaps, the underlying consists of instruments in which the fund may invest according to its investment objective and investment policy. In particular, total return swaps may be used to gain long and short exposure on fixed income securities. The gross exposure of total return swaps will not exceed 30% and is expected to remain within the range of 0% to 10% of the net asset value. In certain circumstances this proportion may be higher.

Derivatives may be employed for instance to generate additional income from exposure to credit risk in purchasing or selling protection through credit default swaps, adjusting the fund's duration through the tactical use of interest related derivatives, generating additional income through inflation or volatility linked derivatives or increasing its currency exposure through the use of currency related derivatives. Derivatives could also be employed to create synthetic instruments. Such derivatives include over-the-counter and/or exchange traded options, futures, warrants, swaps, forward contracts and/or a combination of the above.

The fund maintains a higher overall sustainability score than the ICE BofA Merrill Lynch Global Governments Inflation-Linked EUR Hedged index based on the investment manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section of the Fund Details, as set out in Appendix III of the Prospectus.

The fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the fund's webpage, accessed via <https://www.schroders.com/en/hk/retail-investors/funds/fund-centre>¹.

Note For clarification purpose, this means to exceed a medium to long term return of the stated index after fees have been deducted. The three to five year period is considered as a medium to long term period, and is the period over which an investor should assess the fund's performance.

Benchmark

The fund's performance should be assessed against its target benchmark being to exceed the ICE BofA Merrill Lynch Global Governments Inflation-Linked EUR Hedged index. The fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. However, the fund will likely reflect certain features of the target benchmark namely credit quality and duration, as well as currency exposure. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the fund.

Use of derivatives / investment in derivatives

The fund's net derivative exposure may be more than 100% of the fund's net asset value.

What are the key risks?

Investment involves risk. Please refer to the offering document for details including the risk factors.

1. Risk relating to investment in debt securities

- **Credit and counterparty risk** – Investment in debt securities is subject to the credit/default risk of the issuer which may also adversely affect the settlement of the securities.
- **Interest rate risks** – Investment in the fund is subject to interest rate risk. In general, the prices of debt securities rise when interest rates fall, whilst their prices fall when interest rates rise.
- **Credit ratings risk** – Credit ratings assigned by rating agencies are subject to limitations and do not guarantee the creditworthiness of the security and/or issuer at all times.

¹ This website has not been reviewed by the SFC.

- **Credit downgrading risk** – The credit rating of debt securities or their issuers may subsequently be downgraded. In the event of such downgrading, the value of the fund may be adversely affected. The investment manager may not dispose of such securities immediately and the fund may therefore be subject to additional risk of loss.
- **Liquidity and volatility risk** – Securities not listed or rated or actively traded may have low liquidity and higher volatility. The prices of such securities may be subject to fluctuations. The bid and offer spread of their price may be high and the fund may therefore incur significant trading costs and may even suffer losses when selling such instruments.
- **Valuation risk** – Valuation of the fund's investment may involve uncertainties and judgmental determinations. If such valuation turns out to be incorrect, this may affect the net asset value calculation of the fund.

2. Inflation linked debt securities

Inflation linked debt securities is not as liquid as the conventional government bond market. As a result, investor flows can have a higher impact on prices than for conventional bonds, which can influence performance. However, as the asset class grows in popularity, the susceptibility to the influence will diminish. The fund investing in inflation linked debt securities is not an alternative to money market funds. Inflation should lead to higher returns as inflation climbs but, if yields rise dramatically, investors could lose money.

3. Sovereign debt risk

Investment in sovereign debt obligations issued or guaranteed by governments or their agencies of certain developing countries and certain developed countries may expose the fund to political, social and economic risks. A government entity's willingness or ability to repay principal and interest due in a timely manner may be affected by various factors. In the event that a government entity defaults on its sovereign debt, holders of sovereign debt, including the fund, may be requested to participate in the rescheduling of such debt and to extend further loans to the relevant government entity. The fund may suffer significant losses in such events.

4. Risk of investment in Europe

The fund may invest in securities which may include a substantial investment in European securities. In light of the current fiscal conditions and concerns on sovereign debt of certain European countries, the fund may be subject to an increased amount of volatility, liquidity, price, default and currency risk should there be any adverse credit events, such as credit downgrade of a sovereign or exit of EU members from the Eurozone, in the European region. Notwithstanding the governments of the European countries have adopted measures to address these problems, it is possible that these measures may not work and may adversely affect the value of the fund's investment in European securities. If these adverse economic or financial events in Europe continue, they could have additional unfavourable effects on the economies and financial markets of other parts of the world thereby affecting the value of the fund's investment.

5. Risk of implementing active currency positions

The investment manager has the flexibility to actively manage currency positions which it considers will achieve the investment objective of the fund. However no guarantee or representation is made that such investment strategy/technique will be successful.

When implementing active currency positions, the fund may enter into currency forwards or other instruments with the aim of protecting the value of the assets of the fund against untoward foreign exchange risks and actively managing currency positions of the fund. Currency forwards or other instruments do not eliminate fluctuations in the prices of the fund's securities or in foreign exchange rates, or prevent loss if the prices of these securities decline. Performance may be strongly influenced by movements in foreign exchange rates because currency positions held by the fund may not correspond with securities positions held. In such circumstances, the fund's assets may be exposed to the losses which may in turn adversely affect the net asset value per share of the fund and investors may suffer losses.

6. Derivatives

The fund may use derivatives to meet its specific investment objective. There is no guarantee that the performance of derivatives will result in a positive effect for the fund. The leverage element/component of derivatives can result in a loss significantly greater than the amount invested in the derivatives by the fund. Derivative exposure may lead to a high risk of significant capital loss. Risks associated with derivatives include:

- **Credit risk and Counterparty risk** – The fund will be subject to the risk of the inability of any counterparty through or with which the fund conducts the derivative transactions to perform its obligations, whether due to insolvency, bankruptcy or other causes. Long and short positions gained through total return swaps may increase exposure to credit-related risk.
- **Liquidity risk** – There may be possible absence of a liquid secondary market for any particular derivatives at any time. The fund may be unable to sell illiquid derivatives at an advantageous time or price and results in a reduction of returns.
- **Valuation risk** – The fund is subject to the risk of mispricing or improper valuation of derivatives.
- **Volatility risk** – The fund is subject to the risk of higher volatility of the returns as derivatives usually have a leverage component.
- **Interest rate risk** – There may be interest rate risk when swaps (such as total return swaps) involve floating rate payments.
- **Over-the-counter ("OTC") transaction risks** – Derivatives traded in OTC markets may be more volatile and less liquid. Its prices may include an undisclosed dealer mark-up which a fund may pay as part of the purchase price.
- **Hedging risk** – There is no guarantee that the desired hedging instruments will be available or hedging techniques will achieve their desired result. In adverse situations, the use of hedging instruments may become ineffective in hedging and the fund may suffer significant losses.

7. Risks relating to high expected leverage

The fund may have a net leverage exposure of over 100% of its net asset value to derivatives. This will further magnify any potential negative impact of any change in the value of the underlying asset on the fund and also increase the volatility of the fund's price and may lead to significant losses.

8. Concentrated geographical locations

The fund investing in concentrated geographical locations may be subject to a higher level of risks comparing to a fund investing in a more diversified portfolio/strategy. The value of the fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event affecting the relevant geographical locations.

9. Emerging and less developed markets

The fund may invest in emerging and less developed markets. Investing in emerging and less developed markets is subject to greater risks than investing in securities of developed countries such as ownership and custody risks, political and economic risks, market and settlement risks, liquidity and volatility risk, legal and regulatory risks, execution and counterparty risk, and currency risk, which may adversely affect the net asset value per share of the fund and investors may as a result suffer losses.

10. Risks relating to distributions

- For distribution share classes with a general dividend policy, expenses will be paid out of capital rather than out of gross income. The amount of distributable income therefore increases and the amount so increased may be considered to be dividend paid out of capital; capital growth will be reduced and in periods of low growth capital erosion may occur.
- Distribution share classes with a fixed dividend policy will distribute the dividends based on a fixed amount or fixed percentage of the net asset value per share. This may result in share classes with fixed distributions either paying out both income and capital in distribution payments, or not substantially distributing all the investment income which a share class has earned.
- **You should note that in the circumstances where the payment of distributions are paid out of capital, this represents and amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the net asset value per share.**
- The distribution amount and net asset value of the currency hedged share class may be adversely affected by differences in the interest rates of the reference currency of the currency hedged share classes and the fund's base currency, resulting in an increase in the amount of distribution that is paid out of capital and hence a greater erosion of capital than other non-currency hedged share classes.

11. Risks relating to hedging and the hedged classes

- In respect of the share classes which the management company of the fund has the ability to fully hedge the shares of such share classes in relation to the fund currency, currency exposures or currency hedging transactions within the fund's portfolio will not be considered. The aim of a currency hedged share class is to provide you with the performance returns of the fund's investments by reducing the effects of exchange rate fluctuations between the fund currency and the reference currency. However there is no assurance that the hedging strategies employed will be effective in fully eliminating the currency exposure to the reference currency thereby delivering performance differentials that are reflective only of interest rate differences adjusted for fees.
- Where undertaken, the effects of this hedging will be reflected in the net asset value and, therefore, in the performance of such share class. Similarly, any expenses arising from such hedging transactions will be borne by the share class in relation to which the expenses have been incurred.
- It should be noted that, where relevant, these hedging transactions may be entered into whether the reference currency is declining or increasing in value relative to the relevant fund currency and so, where such hedging is undertaken it may substantially protect investors in the relevant share class against a decrease in the value of the fund currency relative to the reference currency, but it may also preclude investors from benefiting from an increase in the value of the fund currency.

12. Currency risks

Assets and share classes may be denominated in currencies other than EUR and some may not be freely convertible. The fund may be adversely affected by changes in foreign exchange rates and exchange rate controls of the currencies in which securities are held, the reference currencies of the share classes and the EURO. This exposes all share classes of the fund to exchange rate fluctuations and currency risk. It may not be practicable or possible to hedge against such foreign exchange/currency risk exposure.

How has the fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-To-NAV, with dividend reinvested.
- These figures show by how much the fund's Class A EUR Accumulation increased or decreased in value during the calendar year being shown. Performance data has been calculated in EUR including ongoing charges and excluding subscription fee and redemption fee you might have to pay.
- Target benchmark: ICE BofA Merrill Lynch Global Governments Inflation-Linked EUR Hedged index
- Fund launch date: 2003
- Class A EUR Accumulation launch date: 2003
- The management company views the Class A EUR Accumulation, being the retail share class denominated in the base currency of the fund, as the most appropriate representative share class of the fund.

Note: The performance of these years was achieved under circumstances that no longer apply. During these years, there was material change(s) to the fund, namely, changes of investment objective and policy and reduction of fee(s).

Is there any guarantee?

This fund does not have any guarantees. You may not get back the full amount of money you invest.

What are the fees and charges?

Charges which may be payable by you

You may have to pay the following fees when dealing in the shares of the fund.

Fee	What you pay		
Share class	A	A1	D
Subscription fee (Initial charge)	Up to 3.00% of the total subscription amount	Up to 2.00% of the total subscription amount	Nil
Switching fee (Switching charge)	Up to 1.00% of the value of the shares to be switched		
Redemption fee (Redemption charge)	Nil		

Ongoing fees payable by the fund

The following expenses will be paid out of the fund. They affect you because they reduce the return you get on your investments.

	Annual rate (as a % of the fund's value)		
Share class*	A	A1	D
Management fee (Annual Management Charge)	0.75%	0.75%	0.75%
Depositary fee	Up to 0.005%		
Performance fee	Nil		
Administration fee	Up to 0.25%		
Distribution charge (Annual Distribution Charge)	Nil	0.50%	1.00%
Custody safekeeping fee	Up to 0.3%		
Transaction fees (charged by the Depositary)	Up to USD75 per transaction		
Fund accounting and valuation fees	Up to 0.0083%		

* Where currency hedged share class is offered, a hedging charge of up to 0.03% per annum of the net asset value per share will be borne by the currency hedged share class in relation to which the charge is incurred. The hedging charge will be payable to the management company, which provides the currency hedging service.

Note: As of the date of this document, Class D shares of the fund are not being offered to the public in Hong Kong.

Other fees

You may have to pay other fees when dealing in the shares of the fund. Please refer to the offering document for fees payable by the fund.

Additional information

- You generally buy and redeem shares at the fund's relevant net asset value ("NAV") after Schroder Investment Management (Hong Kong) Limited receives your request, directly or via a distributor, in good order at or before 5pm HK time, being the fund's dealing cut-off time on each dealing day of the fund. Before placing your subscription or redemption orders, please check with your distributor for the distributor's internal dealing cut-off time (which may be earlier than the fund's dealing cut-off time).
- A dividend calendar including details on the distribution frequency and the dividend calculation basis for all available distribution share classes and a composition of the dividend payments (i.e. the percentages of distribution being paid out of capital and net distributable income) for the last twelve months for each of these distribution share classes (i) with a variable distribution policy or (ii) with a fixed dividend policy and paying dividends out of capital are also available from the Schroder Investment Management (Hong Kong) Limited on request and from the Schroders' Internet site (www.schroders.com.hk).
- Past performance information of other share classes offered to Hong Kong investors is available online at www.schroders.com.hk.
- The net asset value of this fund is calculated and the price of shares is published on each dealing day. They are available online at www.schroders.com.hk. This website has not been reviewed by the SFC.
