* Generally, Dealing Day is any day (except Saturday) on which banks in Hong Kong are open for normal banking business. Please refer to the Explanatory Memorandum for the full definition of “Dealing Day”.

** The ongoing charges figure is based on ongoing expenses for the year ended 31 December 2021 expressed as a percentage of the Fund’s average Net Asset Value for the same period. It includes the fees of the Manager and the Trustee. Please refer to the “CHARGES AND EXPENSES” section in the Explanatory Memorandum and the Term Sheet of the Fund respectively for details. This figure may vary from year to year.

What is the Fund?

- ❖ The Fund is a fund in the Hang Seng Investment Series, which is a unit trust established as an umbrella fund and is currently domiciled in The Hong Kong Special Administrative Region (“Hong Kong”).

Objective and Investment Strategy

The investment objective of the Fund is to achieve long term capital appreciation by investing at least 70% of its Net Asset Value in the securities of financial services companies with major business focus in Hong Kong and/or the PRC which are listed on The Stock Exchange of Hong Kong Limited (“SEHK”). In addition, the Fund may also invest less than 30% of its Net Asset Value in the securities of other financial services companies which are listed on other overseas exchanges and securities of non-financial services companies which are listed on the SEHK and other overseas exchanges.

The Fund may invest less than 30% of its Net Asset Value in mainland China-listed A-shares, including but not limited to stocks listed on the ChiNext Board, via the Shanghai-Hong Kong Stock Connect and/or the Shenzhen-Hong Kong Stock Connect (collectively, “Stock Connect”).

The Fund does not intend to have an investment focus in terms of its choice of companies by size.

In order to maximise return for investors, the Fund's portfolio will be actively managed by employing both quantitative and qualitative analysis in selecting securities which have potential for investments, without reference to any market index as an investment indicator.

Use of derivatives / investment in derivatives

The Fund will not use financial derivative instruments for any purposes.

What are the key risks?

Investment involves risks. Please refer to the "Risk Factors" section in the Explanatory Memorandum and the Term Sheet of the Fund respectively for details.

Investment Risk

- ❖ The Fund's investment portfolio may fall in value due to any of the key risk factors below and therefore your investment in the Fund may suffer losses. There is no guarantee of the repayment of principal.

Currency and exchange control Risk

- ❖ Where the underlying investments of the Fund are denominated in currencies other than the base currency of the Fund, the Net Asset Value of the Fund may be affected unfavourably by fluctuations in the exchange rates between these currencies and the Fund's base currency and by changes in exchange rate controls.

Risks for Funds investing in Equities

- ❖ The Fund's investment in equity securities is subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors.

Concentration Risk

- ❖ As the Fund invests principally in securities of companies in the financial service sector, such as banking, insurance and financial services, an investment in the Fund may be more vulnerable to price fluctuations of shares of financial service companies and other factors that particularly affect financial service industries as compared to an investment in a more broadly diversified fund.
- ❖ The value of the Fund may be more susceptible to adverse economic, political, policy, foreign exchange, liquidity, tax, legal or regulatory event affecting Hong Kong and China.

Risks for Funds investing in Companies with Medium or Small Capitalisation

- ❖ The stock of small-capitalisation/ mid-capitalisation companies may have lower liquidity and their prices are more volatile to adverse economic developments than those of larger capitalisation companies in general.

General Risks of Investments associated with an Emerging Market

- ❖ Investing in an emerging market (such as mainland China) may involve increased risks and special considerations not typically associated with investment in more developed markets, such as liquidity risks, currency risks/control, political and economic uncertainties, legal and taxation risks, settlement risks, custody risk and the likelihood of a high degree of volatility.

Risks associated with the Stock Connect

- ❖ The relevant rules and regulations on the Stock Connect are subject to change which may have potential retrospective effect. The Stock Connect are subject to quota limitations. Where a suspension in the trading through the programme is effected, the Fund's ability to invest in A-shares or access the PRC market through the programme will be adversely affected. In such event, the Fund's ability to achieve its investment objective could be negatively affected.

RMB Currency and Conversion Risks relating to RMB Denominated Securities

- ❖ RMB is currently not freely convertible and is subject to exchange controls and restrictions. Non-RMB based investors are exposed to foreign exchange risk and there is no guarantee that the value of RMB against the investors' base currencies (for example HKD) will not depreciate. Any depreciation of RMB could adversely affect the value of investor's investment in the Fund. Although offshore RMB (CNH) and onshore RMB (CNY) are the same currency, they trade at different rates. Any divergence between CNH and CNY may adversely impact investors.

PRC Tax Risk

- ❖ The Fund may be subject to PRC Corporate Income Tax and/or other PRC taxes on any cash dividends, distributions and interest it receives from its investment in PRC Securities. The Manager reserves the right to make relevant provision on such incomes (if any) if so warranted.
- ❖ Having considered the professional and independent tax advice, the Manager currently does not make withholding income tax provision for gross realised or unrealised capital gains derived from trading of A-shares via Stock Connect.
- ❖ The Manager currently does not make withholding income tax provision for gross realised or unrealised capital gains derived from trading of H-shares and/or certain red chip shares.
- ❖ There are risks and uncertainties associated with the current PRC tax laws, regulations and practice in respect of investments in the PRC via QFII quota or the Stock Connect (which may have retrospective effect). Any increased tax liabilities on the Fund may adversely affect the Fund's value. If taxes are levied in future on the Fund for which no provision is made, the Fund's Net Asset Value will be adversely affected. In this case, the then existing and subsequent investors will be disadvantaged.

How has the Fund performed?

- ❖ Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- ❖ The computation basis of the performance is based on the calendar year end, Unit Price-To-Unit Price, with dividend (if any) reinvested.
- ❖ These figures show by how much the Fund increased or decreased in value during the calendar year being shown. Performance data has been calculated in HKD including ongoing charges and excluding subscription fee and switching fee you might have to pay.
- ❖ The Class B Units of the Fund were consolidated into Class A Units of the Fund with effect from 24 December 2014.
- ❖ Fund launch date: 2004

❖ Class A Units launch date: 2004

Is there any guarantee?

The Fund does not have any guarantees. You may not get back the full amount of money you invest.

What are the fees and charges?

Charges which may be payable by you

You may have to pay the following fees when dealing in the Units of the Fund.

Fee	What you pay [#]	
Subscription Fee	Class A Units	Up to 4.0% of the issue price of the Fund
Switching Fee	Class A Units	Up to 2.0% of the issue price of the Fund
Redemption Fee	Class A Units	Nil

[#] Please contact the Authorised Distributor(s) of the Fund for details.

Ongoing fees payable by the Fund

The following expenses will be paid out of the Fund. They affect you because they reduce the return you get on your investments.

	Annual rate (as a % of the Net Asset Value of the Fund)	
Management Fee [^]	Class A Units	Up to 1.5%
Trustee Fee [^]	Class A Units	0.1%

[^] Please note that the annual rate stated may be increased up to a permitted maximum rate as set out in the Explanatory Memorandum by giving 1 month's prior notice to relevant Unitholders.

Other fees

You may have to pay other fees and charges when dealing in the Units of the Fund. Please refer to the "CHARGES AND EXPENSES" section in the Explanatory Memorandum for details.

Additional Information

- ❖ You generally buy and redeem Units at the Fund's next-determined Net Asset Value.
- ❖ To be dealt with on a Dealing Day, your request has to be received by the Authorised Distributor(s) of the Fund in good order on or before the dealing cutoff time as set by them (which may be different from that as set by the Manager). Please contact the Authorised Distributor(s) of the Fund for details.
- ❖ The Net Asset Value of the Fund on each Dealing Day is normally calculated on the Business Day after that Dealing Day, and is available online at www.hangsenginvestment.com[▲].
- ❖ Investors may obtain other information of the Fund from the website www.hangsenginvestment.com[▲].
