What is this product?

Fidelity Advantage Portfolio Fund is a unit trust constituted by the Trust Deed and governed by Hong Kong law. The fund is a fund of funds that invests in the funds managed by the Fidelity Organisation.

Objectives and Investment Policy

- The fund aims to achieve long-term capital growth in US dollar terms for investors including savings plans and retirement benefits schemes.
- The fund will invest primarily (i.e. at least 70% of its net asset value) in the global equity markets and produce returns that are related to those achieved on the major world stock market indices. As the fund may invest globally, it may be exposed to countries/regions considered to be emerging markets.
- Prior to 31 October 2021, the fund is a fund of funds and may invest up to 65% of its latest available net asset value in each of the Fidelity Global Investment Fund – Americas Equity Fund and the Fidelity Global Investment Fund – European Equity Fund, provided that the maximum total aggregate investment in both the Fidelity Global Investment Fund – Americas Equity Fund and the Fidelity Global Investment Fund – European Equity Fund does not exceed 90% of the fund's latest available net asset value. Save as aforesaid, the value of the fund's holding of interests in any one fund would not exceed 30% of its net asset value.
- With effect from 31 October 2021, the fund is a fund of funds and may invest up to 70% of its latest available net asset value in the Fidelity Global Investment Fund – Americas Equity Fund and up to 65% of its latest available net asset value in the Fidelity Global Investment Fund – European Equity Fund, provided that the maximum total aggregate investment in both the Fidelity Global Investment Fund – Americas Equity Fund and the Fidelity Global Investment Fund – European Equity Fund does not exceed 90% of the fund's latest available net asset value. Save as aforesaid, the value of the fund's holding of interests in any one fund would not exceed 30% of its net asset value.
- The Fidelity Global Investment Fund – Americas Equity Fund aims to produce returns that are related to those achieved on the major stock market indices of North America by focusing investment (i.e. at least 70% of its net asset value) into the equity markets of North America, namely equities of companies listed, have their head office or exercise a predominant part of their activity in North America.
- The Fidelity Global Investment Fund – European Equity Fund aims to produce returns that are related to those achieved on the major stock market indices of Europe by focusing investment (i.e. at least 70% of its net asset value) into equity markets of Europe.

Use of derivatives

The fund's net derivative exposure may be up to 50% of the fund's net asset value.

What are the key risks?

Investment involves risks. Please refer to the Explanatory Memorandum for details including the risk factors. Where applicable, reference to the fund in this section includes reference to the underlying funds.

Risk to Capital and Income (Investment Risk)

- The assets of the fund are subject to fluctuations (increase or decrease) in value. There is no guarantee of repayment of principal and you may not get back the original amount invested. Past performance is no guarantee of future performance.

Risks of investing in other collective investment schemes/funds

The fund by investing in other funds is subject to the following risks associated with the underlying funds:

- The fund does not have control of the investments of the underlying funds and there is no assurance that the investment objective and strategy of the underlying funds will be successfully achieved. This may have a negative impact to the net asset value of the fund.
- There may be additional costs involved when investing into the underlying funds. There is also no guarantee that the underlying funds will always have sufficient liquidity to meet the fund's redemption requests as and when made.

Foreign Currency Risk

- The fund's assets may be denominated in currencies other than the base currency of the fund. Fluctuations in the exchange rates between these currencies and the base currency as well as changes in exchange rate controls may adversely affect the fund's net asset value.

Equities

- The fund's investment in equities securities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events including changes in investment sentiment, political and economic conditions and issuer-specific factors.

Valuation Risk

- Valuation of the fund's investments may involve uncertainties and judgmental determinations. If such valuation turns out to be incorrect, this may affect the net asset value calculation of the fund.

Financial Derivative Instruments

- Although the fund will not use derivatives for investment purposes, the use of derivatives may give rise to liquidity risk, counterparty credit risk, volatility risk, valuations risks and over-the-counter transaction risk at times. Exposure to financial derivative instruments may lead to a high risk of significant loss by the fund.

How has the fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividend reinvested.
- These figures show by how much the Ordinary Units increased or decreased in value during the calendar year being shown. Performance data has been calculated in USD including ongoing charges and excluding any subscription fees and realisation fees you might have to pay.
- Fund launch date: 2003
- Ordinary Units launch date: 2003
- The Investment Manager views Ordinary Units, having the longest track record and denominated in the fund's base currency, as the most appropriate representative unit class.

Is there any guarantee?

This fund does not have any guarantees. You may not get back the full amount of money you invested.

What are the fees and charges?

Charges which may be payable by you

You have to pay the following fees when dealing in units of the fund.

| Classes of Units | Subscription Fee | Switching Fee | Realisation Fee |
|------------------|------------------|---|-----------------|
| Ordinary | Currently waived | 5.0% of issue price of Unit in New Sub-Fund | N/A |
| Administration | Currently waived | 5.0% of issue price of Unit in New Sub-Fund | N/A |
| Savings | Currently waived | Nil | N/A |

Ongoing fees payable by the fund

The following expenses will have to be paid out of the fund. They affect you because they reduce the return you get on your investments.

| Classes of Units | Investment Management Fee | Trustee Fee | Performance Fee | Administration Fee |
|------------------|-------------------------------|------------------|-----------------|--|
| Ordinary | 0.75% p.a. of net asset value | Currently waived | N/A | N/A |
| Administration | 0.75% p.a. of net asset value | Currently waived | N/A | 0.45% p.a. of net asset value attributable to Administration Units |
| Savings | 0.75% p.a. of net asset value | Currently waived | N/A | 0.50% p.a. of net asset value attributable to Savings Units |

Other Fees

You may have to pay other fees when dealing in units of the fund. Any other fees and charges are described in the Explanatory Memorandum. You should note that some fees may be increased, up to a specified permitted maximum, by giving Unitholders at least three months' prior notice. For details, please refer to the Explanatory Memorandum.

Additional Information

- You generally buy, redeem or switch units at the fund's next-determined net asset value after your request is received in good order at or before 12.00 noon (Hong Kong time) on a dealing day, being the fund's dealing cut-off time.
- The net asset value of this fund is calculated and the price of units is published each business day. Unit prices of the fund will be published on www.fidelity.com.hk.¹
