| <b>Min. investment:</b>                     | None   |   |

# The ongoing charges figure is calculated based on expenses for the year ended at 31 December 2021. This figure may vary from year to year. The ongoing charge is calculated by adding all direct fees, indirect fees and external fees of the sub-fund and then divided by the average net assets. Direct fees refer to charges and payment directly borne by the sub-fund such as operating costs, remuneration and payment to key operators and service providers. Indirect fees refer to the ongoing charges of the underlying funds which the sub-fund invests. External fees refer to any remuneration of the management company or other party that derives from fee-sharing arrangement.

## What is this product?

This sub-fund is a fund constituted in the form of a mutual fund. It is incorporated under Luxembourg law and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

### Objective and Investment Strategy

#### Objective

SMaRT means sustainably manufactured and responsibly transformed. The sub-fund seeks to increase the value of its assets over the medium term by investing sustainable food supply chain companies helping to accelerate the transition to a more sustainable world.

#### Strategy

The sub-fund aims to invest in companies within sustainable food value chain that are delivering solutions to environmental and nutritional challenges.

At all time, this sub-fund invests at least 75% of its assets in equities and/or equity equivalent securities issued by companies that conduct a significant part of their business (i.e. at least 20% of the total turnover) with sustainable activities and processes in the food supply chain and related or connected sectors (i.e. companies that are helping to lower the environmental impact of agriculture and food production, facilitating the provision of safe and nutritious food, and promoting animal welfare standards along the food value chain).

The remaining portion, namely a maximum of 25% of its assets, may be invested in any other transferable securities (including participatory notes), money market instruments, and/or cash, and also, within a limit of 15% of the assets, in debt securities of any kind and, within a limit of 10% of the assets, in collective investment schemes.

In respect of the above investments limits, the sub-fund's investments into "China A-Shares" via the Stock Connect may reach up to 25% of its assets.

The Investment Manager applies BNP PARIBAS ASSET MANAGEMENT's Sustainable Investment Policy as defined in the Prospectus, which takes into account Environmental, Social and Governance ("ESG") standards and integration in the investment process of the sub-fund.

ESG standards are integrated in the investment process of the sub-fund. The ESG standards comprise 1) the 10 principles of the United Nations Global Compact and OECD Guidelines for Multinational Enterprises and 2) the BNP PARIBAS ASSET MANAGEMENT sector policies.

The United Nations Global Compact is a shared framework, recognized worldwide and applicable to all industry sectors. The 10 principles of the United Nations Global Compact in the areas of human rights, labour standards, environmental stewardship and anti-corruption are integrated in the investment process. Similarly, the OECD Guidelines for Multinational Enterprises set out principles for the responsible business conduct of businesses.

BNP PARIBAS ASSET MANAGEMENT has also defined a series of ESG guidelines relating to investments in sensitive sectors including but not limited to palm oil, wood pulp, mining activities, nuclear, coal-fired power generation, tobacco, controversial weapons, unconventional oil and gas and asbestos.

The ESG integration involves the evaluation of the three non- financial indicators below:

- Environmental: such as energy efficiency, reduction of emissions of greenhouse gases, treatment of waste;
- Social: such as respect of human rights and workers' rights, human resources management (workers' health and safety, diversity);
- Governance: such as Board of Directors independence, managers' remuneration, respect of minority shareholders rights.

ESG integration above is reflected in the investment process of the sub-fund by way of ESG scores.

The ESG analysis applies to at least 90% of the issuers of the portfolio. Along with its thematic focus, the portfolio manager would eliminate at least 20% of the lowest ESG rated securities in the investment universe (i.e. large and mid-cap companies in the MSCI All Country World Index across the main markets of developed countries such as the USA, Japan, the UK and Canada) and would then only invest in the remaining higher ESG score

securities.

The sub-fund would exclude investment in (i) securities issued by companies that violate any of the principles of the United Nations Global Compact or OECD Guidelines for Multinational Enterprises and (ii) securities issued by companies from the sensitive sectors above that do not comply with the guidelines defined by BNP PARIBAS ASSET MANAGEMENT.

## Use of Derivatives/Investment in Derivatives

The sub-fund's net derivative exposure may be up to 50% of the sub-fund's NAV.

## What are the key risks?

**Investment involves risks. Please refer to the offering document for details including the risk factors.**

### Investment Risk

- When investing in a fund, there is a risk that the final outcome may deviate from the initial expectations. The sub-fund's investment portfolio may fall in value due to any of the key risks below and therefore may suffer losses. In addition, there is no guarantee of principal repayment.

### Sector Concentration Risk

- The sub-fund's investments are concentrated in food supply chain companies. This may result in greater volatility than funds which comprise broad-based investments. The sub-fund may be more susceptible to adverse fluctuations in value resulting from adverse condition in the food supply sector and the sub-fund's value may be adversely affected.
- The sub-fund may be more susceptible to different food-related factors including national and international fiscal and monetary policies, such as import and export tariffs on food items, subsidies to the agricultural sector and tax concessions. A change of such fiscal and monetary policies, due to political reasons or otherwise, may adversely impact the value of the sub-fund.

### Environmental, Social and Governance Risk

- The use of ESG standards and analysis may affect the sub-fund's investment performance and, as such, the sub-fund may perform differently including underperforming compared to similar funds that do not use such standards.
- The use of ESG criteria may also result in the sub-fund being concentrated in companies with ESG focus and its value maybe more volatile than that of fund having a more diverse portfolio of investment.
- ESG-based exclusionary standards used by the sub-fund may result in the sub-fund foregoing opportunities to buy certain securities when it might otherwise be advantageous to do so, and/or selling securities due to their ESG characteristics when it might be disadvantageous to do so.
- In evaluating a security based on ESG standard, the investment manager may use information and data from third party providers, which may be incomplete, inaccurate or unavailable.
- Investment selection of the sub-fund is based on subjective judgement from the investment manager. The investment manager may incorrectly assess the ESG characteristics of a security and may wrongly exclude eligible security.
- Due to the lack of standardized taxonomy, the investment manager may not apply the relevant ESG standards correctly or that the sub-fund could have indirect exposure to security which do not meet the relevant ESG standards used by the sub-fund.
- ESG standard and expectation are evolving. There is a risk of style drift within the investment limits of the sub-fund.

### Risk related to Equity Markets

- Investments in equity include significant fluctuations in prices, negative information about the issuer or market. Moreover, these fluctuations are often amplified in the short term and may have a negative impact

## BNP Paribas Funds SMaRT Food

on the performance of the overall portfolio at a given time. There is no guarantee that investors will see an appreciation in value. Investment in equity is also subject to general market risks, whose value may fluctuate due to various factors, such as changes in investment sentiment, political and economic conditions and issuer-specific factors. The value of investments of the sub-fund may go down and it is possible that investors will not recover their initial investment.

### Currency Exchange Risk

- A share class may be designed in a currency other than the base currency of the sub-fund. Further, the sub-fund may hold assets denominated in currencies that differ from the base currency of the sub-fund, and may be affected by exchange rate fluctuations between the base currency and the other currencies and by changes in exchange rate controls. A depreciation of the denomination currency will lead to a depreciation in the exchange value of the security. There is no guarantee that the hedging of currency exchange risk (if any) will be completely effective and the value of specific share class or sub-fund may be adversely affected.

### Risk associated with investments in financial derivative instruments

- Risk associated with financial derivative instruments include counterparty/credit risk, liquidity risk, valuation risk, volatility risk and over-the-counter transaction risk. The leverage element/component of a financial derivative instrument can result in a loss significantly greater than the amount invested in the financial derivative instruments by the sub-fund. Exposure to financial derivative instruments may lead to a high risk of significant loss by the sub-fund.

### Risk in connection with Dividend Payment

- The Management Company may at its discretion pay dividends out of the capital of the sub-fund. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the sub-fund's capital may result in an immediate reduction of net asset value per share. The Management Company may change the policy in relation to payment of dividends out of capital subject to the SFC's prior approval and by giving not less than one month's notice to investors.
- The distribution amount and NAV of the hedged share class may be adversely affected by differences in the interest rates of the reference currency of the hedged share class and the sub-fund's base currency, resulting in an increase in the amount of distribution that is paid out of capital and hence further negative impact on capital than other non-hedged share classes.

## How has the fund performed?

- Past performance information is not indicative of future performance. Investors may not get back the full amount invested.
- The computation basis of the performance is based on the calendar year end, NAV-to-NAV, with dividend reinvested.
- Classic Capitalisation, being a share class with the same reference currency as the sub-fund with the longest track record among all share classes and not restricted to certain types of clients, is selected as the representative share class.
- These figures show by how much the Classic Capitalisation share class increased or decreased in value during the

## BNP Paribas Funds SMaRT Food

calendar year being shown. Performance data has been calculated in EUR including ongoing charges and excluding subscription fee and redemption fee you might have to pay.

- Where no past performance is shown there was insufficient data available in that year to provide performance.
- BNP Paribas Funds SMaRT Food launch date: 15 April 2015
- Classic Capitalisation share class launch date: 15 April 2015
- On 18 October 2019, BNP Paribas Funds SMaRT Food absorbed a Luxembourg fund which is not authorized by the SFC.

### Is there any guarantee?

This sub-fund does not have any guarantees. You may not get back the full amount of money you invest.

### What are the fees and charges?

#### Charges which may be payable by you

You may have to pay the following fees when dealing in the shares of the sub-fund.

| Fee                                   | What you pay  |
|---------------------------------------|---|
| <b>Subscription fee (Entry cost)</b>  | Up to 3% of the net asset value of the relevant share class subscribed  |
| <b>Switching fee (Conversion fee)</b> | Up to 1.5% of the net asset value of the relevant share class converted |
| <b>Redemption fee (Exit cost)</b>     | Nil   |

#### Ongoing fees payable by the sub-fund

The following expenses will be paid out of the sub-fund. They affect you because they reduce the return you get on your investments.

|   | Annual rate (as a % of the net asset value of the relevant share category) |
|---|--|
| <b>Management fee</b>   | Up to 1.75%  |
| <b>Custodian fee</b>  | Included in Other costs  |
| <b>Performance fee</b>  | Not applicable   |
| <b>Administration fee</b>   | Included in Other costs  |
| <b>Other costs</b><br>(Other costs cover the general asset custody expenses payable to the custodian and the daily administration expenses) | Up to 0.40%  |

### Other fees

You may have to pay other fees when dealing in the shares of the sub-fund.

### Additional Information

- You generally buy and redeem shares at the sub-fund's next determined subscription price and redemption price through your authorised distributor after the transaction servicing agent receives your request via your authorised distributors in good order on or before 6 pm (Hong Kong time) on a Hong Kong business day. Investors should note that different distributors may have different dealing cut-off which may be earlier than the time specified in this document. Investors should check with the relevant authorised distributors accordingly.
- The net asset value of this sub-fund is calculated and the price of shares published daily on the website at <http://www.bnpparibas-am.hk>.
- Investors may obtain the past performance information of other share classes offered to Hong Kong investors from the website at <http://www.bnpparibas-am.hk>.
- The compositions of the dividends for the last 12 months are available from the Hong Kong representative on request and also on the website at <http://www.bnpparibas-am.hk>.
- Investors may obtain information on the intermediaries from our hotline (852) 2533 0088.
